A “PAW-FECT” New Perk: Prescription Drug Savings for Your Pets

If you are a pet parent, you know nothing can replace the love of our furry family members. However, just like humans, health care costs for pets can be expensive. Especially if you are dealing with expenses for prescriptions treating chronic conditions such as diabetes, anxiety, arthritis, or heart disease, it can be a real burden to your budget.

That’s why, as a new perk for you, Aldine Independent School District has partnered with Inside RxSM Pets, a prescription savings program to provide pet parents discounts on brand and generic human medications prescribed for pets at 40,000 participating retail pharmacies.

Inside Rx Pets provides you with:

- 77% average savings on the cost of generic medications*
- 15% average savings on the cost of brand medications*
- Easy access to savings at one of 40,000 participating retail pharmacies.

We are providing this perk to our “pet parent” employees as a value-add support, with no cost or obligation for you.

If you are interested, you can benefit from Inside Rx Pets savings right way. Simply present the card along with the prescription from your veterinarian at a participating pharmacy to save!
