

FLS International Vaccination Form – Chestnut Hill College

Chestnut Hill College requires vaccinations prior to your stay in their dormitory accommodation. Please find the list of these required vaccinations below. This form **MUST** be completed during the application process. **Proof of each immunization is required upon arrival.**

FLS Student Number: _____

Student Name: _____
Family Name First Name Middle Name

- **1 dose of Meningitis.**
- **2 doses each of MMR (Measles, Mumps, Rubella).**
- **3 doses of Hepatitis B.**
- **Tuberculin test.**

-Students living in the **residence halls** are required to produce proof of adequate immunization against meningococcal disease (meningitis), Hepatitis B, MMR (Measles, Mumps and Rubella) and a Tuberculin test (TB test).

-Adequate proof of Meningitis consists of documentation from a health care provider showing a single dose of conjugate vaccine (MCV4) given on or after the 16th birthday (in English).

-If your TB test shows a positive reaction, you must take a chest X-ray to prove that you do not have active TB.

CHC gives a 5 day grace period to provide proof of vaccination. If students aren't immunized, FLS will assist students in arranging to receive the immunization, but students will be responsible for the cost of the vaccines.

However, due to the short grace period, vaccination before arrival is strongly recommended.

- Yes, I have received the Meningitis Immunization
- I plan to receive the Meningitis Immunization prior to my arrival
- No, I haven't received the Meningitis Immunization & need assistance receiving it upon arrival.
- Yes, I can confirm that I have received the Measles, Mumps, and Rubella Immunization or have a history of infection.
