

Standalone USB MIDI Host - TRS A/B

Seamless MIDI Integration: Connect Classic Gear with Modern Controllers Effortlessly

Model No.: UHOST-I

Version: 1.0

The flykantech.com UHOST-I is a versatile USB MIDI Host box designed to seamlessly connect classic MIDI gear like synthesizers and guitar pedals with modern USB MIDI devices. It allows you to control your MIDI instruments directly using USB controllers, such as Grid, and supports both A and B TRS MIDI standards through its two 3.5mm TRS jacks. The UHOST-I eliminates the need for complex computer setups by providing a straightforward connection process, enabling effortless communication between your devices. It features a HOST port on the front for compatibility with various setups and can be powered via a USB Type-B cable, an existing guitar pedal power supply, or a power adapter from the MIDI Essentials Pack. Encased in a durable metal housing, the UHOST-I offers robust performance and flexibility for both music production and live performance.

Unlock new creative possibilities with the UHOST-I and transform your setup with ease. Whether you're integrating vintage gear with cutting-edge controllers or streamlining your MIDI connections, this USB MIDI host box enhances your musical expression with unmatched convenience and precision. Additionally, this product can support 5-PIN DIN MIDI devices by using a TRS to 5-PIN MIDI Cable. Elevate your artistry and embrace the future of MIDI connectivity with the UHOST-I.
