2-n-Dodecylfuran

Product Information

Product ID  D5612
CAS No.  75308-12-2

Chemical Name

Synonym

Formula  C_{16}H_{28}O
Formula Wt.  212.38
Melting Point
  Purity  ≥98%
  Solubility  Insoluble in water.

Store Temp  4°C
Ship Temp  Ambient

Description  2-n-Dodecylfuran is a furan derivative. Similar compounds display antibacterial efficacy, inhibiting *Mycobacterium* growth.

Caution: This product is intended for laboratory and research use only. It is not for human or drug use.
