Product Information

Product ID L3561
CAS No. 1077-28-7
Chemical Name 1,2-Dithiolane-3-pentanoic acid

Synonym D,L-Thioctic acid

Formula C₈H₁₄O₂S₂

Formula Wt. 206.33

Melting Point 60-62 °C

Purity ≥98%

Solubility Insoluble in water. Soluble
in fat solvents.

Store Temp 4 °C

Ship Temp Ambient

Description Thioctic/lipoic acid is an endogenous organosulfur that exhibits antioxidative activity. This compound is commercially used as a dietary supplement and can be found in meat and leafy vegetables. Thioctic/lipoic acid is required for aerobic metabolism and functions as a cofactor for the pyruvate dehydrogenase complex. In vitro, this compound increases activation of phase II enzymes and scavenges ROS and RNS, protecting against oxidative stress.

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
L3561	1 g	\$31.70
L3561	5 g	\$66.20
L3561	25 g	\$157.00
