Product Information

Product ID P2515

CAS No. 2627-27-2

Chemical Name 3-isothiocyanatopropylbenzene

Synonym Phenylpropyl isothiocyanate

Formula C₁₀H₁₁NS

Formula Wt. 177.27

Melting Point

Purity ≥98%

Solubility Soluble in DMSO.

Store Temp -20°C

Ship Temp Ambient

Description 3-Phenylpropyl isothiocyanate is a synthetic isothiocyanate (ITC) that exhibits antioxidative, cytoprotective, nephroprotective, and chemopreventive activities. In vivo, this compound decreases lung tumor formation induced by benzo[a]pyrene and NNK. Additionally, this isothiocyanate increases expression and activity of heme oxygenase 1 (HO-1) and decreases renal tissue apoptosis induced by cisplatin. Like other ITCs, this compound also acts as a phase II enzyme inducer.

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
P2515	1 g	\$83.10
P2515	5 g	\$254.40
P2515	10 g	\$455.50
