### Product Information

Product ID B1769

CAS No. 477-90-7

Chemical Name

Synonym

Formula C<sub>14</sub>H<sub>16</sub>O<sub>9</sub>

Formula Wt. 328.27

Melting Point 237-240°C

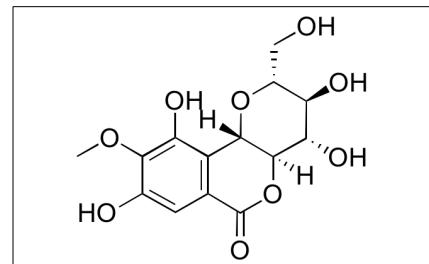

Purity ≥98%

Solubility Slightly soluble in DMSO, methanol. Insoluble in water, ethanol.

Store Temp -20°C

Ship Temp Ambient

**Description** Bergenin is a trihydroxybenzoic acid glycoside found in *Bergenia* and other plant sources. Bergenin exhibits immunosuppressive, anti-inflammatory, anti-parasitic, antimalarial, analgesic, antinociceptive, antioxidative, anti-diabetic, anti-metastatic, anticancer chemotherapeutic, and chemopreventive activities. In vivo, bergenin downregulates expression of NF-κB and IKK $\beta$ , decreases IgG levels, cytokine release, and other immune response mediators, and suppresses development of edema. In vitro and in vivo, bergenin inhibits growth of *Plasmodium*. In other animal models, this compound inhibits mechanical hyperalgesia. In diabetic rats, bergenin decreases levels of blood glucose, total cholesterol, and LDL and increases levels of HDL, superoxide dismutase, and catalase. Additionally, bergenin inhibits tumor development induced by TPA and DMBA.

### Pricing and Availability

**Bulk quantities available upon request**

| Product ID | Size  | List Price |
|------------|-------|------------|
| B1769      | 1 mg  | \$144.40   |
| B1769      | 5 mg  | \$523.00   |
| B1769      | 10 mg | \$763.80   |
