**General advice**

**Eye Contact**  
Flush eyes with water as a precaution.

**Skin Contact**  
Wash off with soap and plenty of water.

**Inhalation**  
If breathed in, move person into fresh air. If not breathing, give artificial respiration.

**Ingestion**  
Never give anything by mouth to an unconscious person. Rinse mouth with water.

### Section 5. Firefighting Measures

**Flash Point**  
Not available.

**Extinguishing Media**  
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

**Firefighting Procedures**  
Wear self-contained breathing apparatus for firefighting if necessary.

**Unusual Fire Hazards**  
Not available.

### Section 6. Accidental Release Measures

**Personal Precautions**  
Avoid dust formation. Avoid breathing vapors, mist, or gas.

**Environmental Precautions**  
No special environmental precautions required.

**Methods and materials for containment and cleanup**  
Sweep up and shovel. Keep in suitable, closed containers for disposal.

### Section 7. Handling and Storage

**Handling**  
Further processing of solid materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed.

**Storage Conditions**  
Keep container tightly closed in a dry and well-ventilated place.  
Recommended storage temperature: -20°C

**Hazardous Decomposition Products**  
Hazardous decomposition products formed under fire conditions. - Carbon oxides, nitrogen oxides (NOx).

**Other Remarks**  
Section 8. Exposure Controls/Personal Protection

**Personal protective equipment**

**EXPOSURE CONTROLS**
Contains no substances with occupational exposure limit values.

**PERSONAL PROTECTION**

**Eye/face protection:** Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

**Skin protection:** Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

**Body protection:** Choose body protection in relation to its type, to the concentration and amount of dangerous substances and to the specific workplace. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

**Respiratory protection:** Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
