Product Information

Product ID P0254

CAS No. 32791-84-7

Chemical Name

Synonym

Formula $C_{30}H_{52}O_4$

Formula Wt. 476.73

Melting Point 238-239C

Purity $\geq 98\%$

Solubility Soluble in DMSO.

Store Temp Ambient

Ship Temp Ambient

Description Panaxatriol is a triterpene saponin originally found in species of *Panax* (ginseng) that exhibits anti-inflammatory, hepatoprotective, anti-arrhythmic, and antioxidative activities. Panaxatriol increases expression of heme oxygenase 1 (HO-1) and activation of Nrf2 signaling in neurons in a PI3K/Akt-dependent manner. Panaxatriol also decreases acetaminophen-induced increases in ALT and TNF- α , preventing liver injury in vivo. Additionally, panaxatriol inhibits Ca²⁺ channels, decreasing channel open time and open state probability in vitro and displaying anti-arrhythmic potential.

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
P0254	5 mg	\$201.80
P0254	10 mg	\$350.50
P0254	25 mg	\$700.60
