

Product Information

Product ID B3278
CAS No. 58-85-5
Chemical Name Hexahydro-2-oxo-1H-thieno[3,4-d]imidazole-4-pentanoic acid

Synonym Biodermin, Coenzyme R, Vitamin H

Formula C₁₀H₁₆N₂O₃S
Formula Wt. 244.31
Melting Point 232-233 °C
Purity ≥98%
Solubility Soluble in water (0.2 mg/mL). Very soluble in hot water and dilute alkali.
Insoluble in common organic solvents. DMSO to 49 mg/mL. 2 M NaOH to 50 mg/mL.

Description Biotin is a water-soluble B vitamin (vitamin B7) that may be found in many foods but is also administered as a dietary supplement. Biotin is a coenzyme involved in the synthesis of fatty acids, isoleucine, and valine; it also plays a role in gluconeogenesis. Biotin may be found attached to lysine residues on histones, modulating genetic regulation. Biotin conjugates are used to study the binding of small, bioactive molecules to endogenous substrates.

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
B3278	500 mg	\$71.50
B3278	1 g	\$112.20
B3278	5 g	\$459.60
B3278	10 g	\$816.70
