Product Information

Product ID N1981

CAS No. 81608-30-2

Chemical Name

Synonym Bombesin decapeptide, Gastrin releasing peptide, GRP

Formula $C_{50}H_{73}N_{17}O_{11}S$

Formula Wt. 1120.3

Melting Point

Purity $\geq 98\%$

Solubility Soluble in water.

Gly-Asn-Leu-Trp-Ala-Thr-Gly-His-Phe-Met-NH₂

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
N1981	1 mg	\$157.40

Store Temp -20°C

Ship Temp Ambient

Description Neuromedin C is an endogenous bombesin-like peptide fragment of gastrin releasing peptide (GRP) that exhibits anorexigenic activity. Neuromedin C increases latency to feeding and decreases food intake and feeding time in vivo. Neuromedin C also induces scratching behavior by activating BB2 receptors and causing mast cell degranulation. Additionally, this peptide displays cardiomodulatory activity, inducing bradycardia and delaying gastric emptying.
