Product Information

Product ID A5279

CAS No.

Chemical Name

Synonym

Formula $C_{24}H_{37}N_7O_8$

Formula Wt. 551.6

Melting Point

Purity $\geq 95\%$

Solubility Soluble in water.

Store Temp $-20^{\circ}C$

Ship Temp Ambient

Description Angiotensin II (AT II) is an endogenous peptide produced from AT I by angiotensin-converting-enzyme (ACE). AT II binds the AT II type 1 (AT1) receptor, stimulating GPCRs in vascular smooth muscle cells and increasing intracellular Ca^{2+} levels; this results in contraction and vasoconstriction, increasing blood pressure. AT II also acts at the Na^{+}/H^{+} exchanger in the proximal tubules of the kidney. Here, AT II increases reabsorption of Na^{+} and HCO_3^{-} and excretion of H^{+} , increasing blood volume and pH and further increasing blood pressure.

H-Asp-Arg-Val-Tyr-OH

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
A5279	5 mg	\$63.00
A5279	10 mg	\$107.00
A5279	25 mg	\$189.00
