Product Information

Product ID E0403

CAS No. 90729-43-4

Chemical Name

Synonym

Formula $C_{32}H_{39}NO_2$

Formula Wt. 469.66

Melting Point 80-86 °C

Purity ≥98%

Solubility

Store Temp Ambient

Ship Temp Ambient

Description Ebastine is a second-generation antihistamine and anti-inflammatory compound that is clinically used to treat allergic rhinitis. Like other newer antihistamines, administration of ebastine results in less of a sedative effect than early antihistamines. Ebastine also increases production of IFN- γ . This compound acts as an antagonist at histamine H1 receptors.

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
E0403	250mg	\$81.90
E0403	1 g	\$127.90
E0403	5 g	\$511.20
