Product Information

Product ID D1761

CAS No. 88337-96-6

Chemical Name

Synonym 15-Acetyldeoxynivalenol, 15-A-DON, 15-Acetyl Vomitoxin, 15-AcDON, Deoxynivalenol 15-acetate, DON 15-acetate

Formula C₁₇H₂₂O₇

Formula Wt. 338.35

Melting Point 185-187°C

Purity ≥98%, TLC

Solubility Soluble in acetonitrile, methanol and ethyl acetate, only slightly soluble in water.

Store Temp 4°C

Ship Temp Ambient

Description 15-acetyl deoxynivalenol (15-A-DON) a type A trichothecene mycotoxin initially produced by species of *Fusarium*. 15-A-DON is typically found in grains used for livestock feed as well as human consumption, such as cereal and bread. This compound exhibits potential anticancer and immunomodulatory benefit in vitro, upregulating IL-8 production and inducing apoptosis in Jurkat T cells. 15-A-DON also displays biphasic effects on cytokine production in CD4+ T cells, initially decreasing expression of IL-2, IL-4, and IL-5, then increasing expression of all three after 7 days of exposure.

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
D1761	0.1 mg	\$42.00
D1761	1 mg	\$284.40
D1761	5 mg	\$1125.90
