

Product Information

Product ID U682042

CAS No. 565460-15-3

Chemical Name [1,1'-Biphenyl]-3-yl-carbamic acid cyclohexyl ester

Synonym

Formula C₁₉H₂₁NO₂

Formula Wt. 295.38

Melting Point

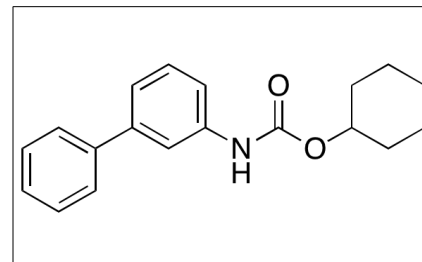

Purity ≥98%

Solubility DMSO (>10 mg/mL)

Store Temp -20°C

Ship Temp Ambient

Description URB602 is a monoacylglycerol lipase (MAGL) inhibitor. By inhibiting MAGL, it increases the amount of 2-arachidonoyl glycerol, which is a natural substrate for the cannabinoid receptors. URB602 shows anti-inflammatory properties in mice models, as well as anti-nociceptive properties. It also demonstrates neuroprotective effects in 7-day old rat pups. Pretreatment with URB602 lessened the effect of hypoxia-ischemic brain damage in rat pup models.

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
U682042	5 mg	\$57.20
U682042	25 mg	\$157.40
U682042	100 mg	\$500.90
