**Section 1. Product and Company Identification**

**Product Name** Curcumin  
**Product ID** C8069  
**Chemical Name (Synonyms)** Turmeric yellow  
**Supplier** LKT Laboratories, Inc  
545 Phalen Blvd.  
St. Paul, MN 55130 USA  
Ph: 651-644-8424 Fax: 651-644-8357  
www.lktlabs.com - getinfo@lktlabs.com  
**Emergency Phone #** 1-800-424-9300

---

**Section 2. Hazards Identification**

**GHS Classification** Not a hazardous substance or mixture.

**GHS Label elements including precautionary statements**

**Pictogram**

**Signal word**

**Hazard and precautionary statements**  
**Hazard statement**  
Not a hazardous substance or mixture.  
**Precautionary statement**  
Not a hazardous substance or mixture.

**HMIS Classification** Health hazard: 1  
Chronic health hazard: \*  
Flammability: 0  
Physical hazard: 0

**NFPA Rating** Health hazard: 0  
Fire hazard: 0  
Reactivity hazard: 0

**Potential Health Effects** Inhalation - May be harmful if inhaled. May cause respiratory irritation.  
Skin - May be harmful if absorbed through skin. May cause skin irritation.  
Eyes - May cause eye irritation.

Ingestion - May be harmful if swallowed.

---

### Section 3. Composition/Information on Ingredients

#### Substances

**Formula**  $C_{21}H_{20}O_6$   
**CAS No.** 458-37-7

**Formula Wt.** 368.38  
**EC No.** 207-280-5

---

### Section 4. First Aid Measures

**General advice** Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

**Eye Contact** Flush thoroughly with plenty of water as a precaution.

**Skin Contact** Wash off with soap and water. Consult a physician.

**Inhalation** If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

**Ingestion** Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

---

### Section 5 . Firefighting Measures

**Flash Point** Not available.

**Extinguishing Media** Use water spray, alcohol-resistant foam, dry chemical, or carbon dioxide.

**Firefighting Procedures** Wear self-contained breathing apparatus for firefighting and protective clothing if necessary.

**Unusual Fire Hazards** Not available.

---

### Section 6. Accidental Release Measures

**Personal Precautions** Use personal protective equipment. Avoid dust formation. Avoid breathing dust, vapors, mist or gas.

**Environmental Precautions** Do not let product enter drains.

**Methods and materials for containment and cleanup** Avoid raising dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.

---

### Section 7. Handling and Storage

**Handling** Avoid formation of dust and aerosols. Further processing of solid materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed.

**Storage Conditions** Keep container tightly closed in a dry and well-ventilated place.  
Recommended storage: ambient

**Hazardous Decomposition Products** Hazardous decomposition products formed under fire conditions. - Carbon oxides.

**Other Remarks** None.

---

## Section 8. Exposure Controls/Personal Protection

### Personal protective equipment EXPOSURE CONTROLS

#### equipment

Contains no substances with occupational exposure limit values.

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

#### PERSONAL PROTECTION

**Eye/face protection:** Safety glasses with side-shields conforming to EN 166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

**Skin protection:** Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

**Body protection:** Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

**Respiratory protection:** Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

---

## Section 9. Physical and Chemical Properties

|                                               |                                                                                                                                             |                                 |                      |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|----------------------|
| <b>Physical State</b>                         | Solid.                                                                                                                                      | <b>Color</b>                    | Orange-yellow powder |
| <b>Boiling Point</b>                          | Not available.                                                                                                                              | <b>Volatility</b>               | Not available.       |
| <b>Melting Point</b>                          | 183°C                                                                                                                                       | <b>Density</b>                  | Not available.       |
| <b>Solubility</b>                             | Soluble in ethanol (10mg/mL), DMSO (74mg/mL), chloroform, acetone, DMF. Soluble in 0.1 M NaOH to (3mg/mL). Do not store more than 12 hours. | <b>pH</b>                       | Not available.       |
| <b>Flash Point</b>                            | Not available.                                                                                                                              | <b>Ignition temperature</b>     | Not available.       |
| <b>Lower explosion limit</b>                  | Not available.                                                                                                                              | <b>Autoignition temperature</b> | Not available.       |
| <b>Upper explosion limit</b>                  | Not available.                                                                                                                              | <b>Vapor pressure</b>           | 12.72 - (Air = 1.0)  |
| <b>Water solubility</b>                       | Insoluble in water.                                                                                                                         | <b>Odor</b>                     | Not available.       |
| <b>Partition coefficient: n-octanol/water</b> | log Pow: 3.29                                                                                                                               | <b>Odor Threshold</b>           | Not available.       |
| <b>Relative vapor density</b>                 | Not available.                                                                                                                              | <b>Evaporation rate</b>         | Not available.       |

---

## Section 10. Stability and Reactivity

|                                         |                                                                                 |
|-----------------------------------------|---------------------------------------------------------------------------------|
| <b>Stability</b>                        | Stable under recommended storage conditions.                                    |
| <b>Materials To Avoid</b>               | Keep away from heat and strong oxidizing agents.                                |
| <b>Hazardous Decomposition Products</b> | Hazardous decomposition products formed under fire conditions. - Carbon oxides. |

**Possibility of hazardous reactions** Not available.

**Conditions to avoid** Not available.

---

## Section 11. Toxicological Information

**Oral LD50** Mouse - > 2,000 mg/kg  
Rat - > 2,000 mg/kg

**Skin corrosion/irritation** Not available.

**Inhalation LC50** Not available.

**Serious eye damage/irritation** Not available.

**Dermal LD50** Not available.

**Respiratory or skin sensitization** Not available.

**Other information on acute toxicity** Not available.

**Germ cell mutagenicity** Not available.

**Reproductive Toxicity** Not available.

**Aspiration Hazard** Not available.

**Specific organ toxicity single exposure (GHS)** May cause respiratory irritation.

**Synergistic effects** Not available.

**Specific organ toxicity repeated exposure (GHS)** Not available.

**Additional Information** RTECS: MI5230000

**Teratogenicity** Not available.

**Signs and symptoms of exposure** Stomach, irregularities, based on human evidence.

**Potential Health Effects** Inhalation - May be harmful if inhaled. May cause respiratory irritation.  
Skin - May be harmful if absorbed through skin. May cause skin irritation.  
Eyes - May cause eye irritation.  
Ingestion - May be harmful if swallowed.

**Carcinogenicity** **IARC:** No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed human carcinogen by IARC.  
**ACGIH:** No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH  
**NTP:** No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.  
**OSHA:** No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

---

## Section 12. Ecological Information

**Toxicity** Not available.

**Mobility in soil** Not available.

**PBT and vPvB assessment** PBT/vPvB assessment not available as chemical safety assessment not required/ not

conducted.

**Persistence and degradability** Not available.

**Other adverse effects** Not available.

**Bioaccumulative potential** Not available.

---

### Section 13. Disposal Considerations

**Waste Disposal** Dispose of material according to all federal, state, and local regulations.  
Contact a licensed professional waste disposal service to dispose of this material as unused product.

---

### Section 14. Transport Information

**DOT (US)** Not dangerous goods.

**IATA** Not dangerous goods.

**IMDG** Not dangerous goods.

#### Further Information

---

### Section 15. Regulatory Information

**Reach No.**

**SARA 302 Components** No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

**SARA 313 Components** This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

**SARA 311/312 Components** Chronic health hazard.

**Massachusetts Right To Know Components** No components are subject to the Massachusetts Right to Know Act.

**Pennsylvania Right To Know Components** Curcumin CAS #: 458-37-7 Revision Date:

**New Jersey Right To Know Components** Curcumin CAS #: 458-37-7 Revision Date:

**California Prop 65 Components** This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

---
