### Product Information

Product ID R3222

CAS No. 14897-39-3

#### Chemical Name

Synonym Rifamycin SV sodium salt, Rifamastene, Rifocin

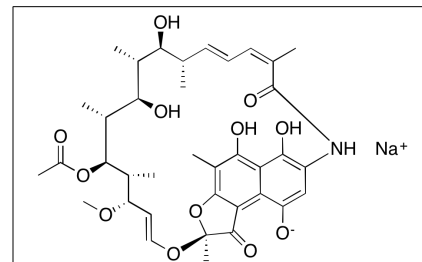

Formula  $C_{37}H_{47}NO_{12} \cdot xNa$

Formula Wt. 719.75

#### Melting Point

Purity  $\geq 98\%$

Solubility Soluble in water (pH7.2).

### Pricing and Availability

**Bulk quantities available upon request**

Product ID	Size	List Price
R3222	1 g	\$60.70
R3222	5 g	\$196.60

**Description** Rifamycin is an ansamycin antibiotic that exhibits antibacterial and anti-inflammatory activities. Rifamycin inhibits bacterial DNA-dependent RNA polymerase, preventing formation of the initiation complex in transcription and suppressing RNA synthesis. Rifamycin displays efficacy against *Mycobacterium*, *Clostridium*, and *Enterobacter*. This compound also decreases LPS-stimulated cytokine synthesis in macrophages and cytokine secretion from CD4+ T cells in cellular models. TEST!!!!
