Product Information

Product ID U682042

CAS No. 565460-15-3

Chemical Name [1,1'-Biphenyl]-3-yl-carbamic acid cyclohexyl ester

Synonym

Formula $C_{19}H_{21}NO_2$

Formula Wt. 295.38

Melting Point

Purity $\geq 98\%$

Solubility DMSO (>10 mg/mL)

Store Temp -20°C

Ship Temp Ambient

Description URB602 is a monoacylglycerol lipase (MAGL) inhibitor. By inhibiting MAGL, it increases the amount of 2-arachidonyl glycerol, which is a natural substrate for the cannabinoid receptors. URB602 shows anti-inflammatory properties in mice models, as well as anti-nociceptive properties. It also demonstrates neuroprotective effects in 7-day old rat pups. Pretreatment with URB602 lessened the effect of hypoxia-ischemic brain damage in rat pup models.
TEST!!!!!!

Pricing and Availability

Bulk quantities available upon request

Product ID	Size	List Price
U682042	5 mg	\$42.00
U682042	25 mg	\$115.50
U682042	100 mg	\$367.50
