Aristolochic acid B is a carcinogenic compound found in *Aristolochia* and *Radix* that has commonly been used in traditional Chinese medicine.

**Product Information**

**Product ID** A6933  
**CAS No.** 475-80-9  
**Chemical Name** 6-Nitrophenanthro(3,4-d)-1,3-dioxole-5-carboxylic acid  

**Formula** $\text{C}_{16}\text{H}_9\text{NO}_6$  
**Formula Wt.** 311.25  
**Melting Point**  
  **Purity** ≥95%  
  **Solubility** Soluble in DMSO or ethanol.

**Store Temp** -20°C  
**Ship Temp** Ambient  

**Description** Aristolochic acid B is a carcinogenic compound found in *Aristolochia* and *Radix* that has commonly been used in traditional Chinese medicine.

**References**

**Caution:** This product is intended for laboratory and research use only. It is not for human or drug use.
