**Microginin 690**

**Product Information**

**Product ID** M3210  
**CAS No.** 958961-34-7

**Chemical Name**

**Synonym**

**Formula** C₃₄H₅₀N₄O₉S  
**Formula Wt.** 690.85

**Melting Point**  
**Purity** ≥95%

**Solubility**

**Store Temp** -20°C  
**Ship Temp** Blue Ice

**Description** Microginins are peptide protein phosphatase inhibitors initially produced by species of cyanobacteria *Microcystis*. Microginins inhibit zinc metalloproteinases such as leucine aminopeptidase and angiotensin-converting enzyme (ACE).
