Section 1. Section 1 of part FFF of chapter 56 of the laws of 2020 relating to directing the department of health to remove the pharmacy benefit from the managed care benefit package and to provide the pharma-

cy benefit under the fee for service program, is amended to read as follows:

Section 1. The Legislature hereby finds and declares that medical assistance for needy persons is a matter of public concern and a necessity in promoting the public health and welfare and for promoting the state's goal of making available to everyone, regardless of race, age, gender, national origin or economic standing, uniform, high-quality medical care. As the department of health is the single state agency responsible for supervising the administration of the state's medical assistance program (Medicaid), it is tasked with ensuring efficiency, economy, and quality of care in providing benefits to the state's needy persons. To this end and with the fiscal constraints facing our state in mind, the department of health continues to analyze the Medicaid program in search of ways to ensure Medicaid spending is held to the standard of efficiency, economy, and quality of care. In consideration of this standard, the department of health is hereby directed to exercise its existing administrative authority to remove the pharmacy benefit from managed care benefit package and instead provide the pharmacy benefit under the fee for service program, except where otherwise required by federal law, to ensure transparency and that the benefit is provided to the fullest extent and as efficiently as possible; provided, however, that the department of health shall not implement the transition of the pharmacy benefit from the managed care benefit package to the fee for service program sooner than April 1, [~~2021~~] **2023**, and until it is satisfied that all necessary and appropriate transition planning has occurred, in its sole discretion, and federal approvals have been obtained and preparations have been made. Furthermore, to ensure an orderly transition, continued access to medications, and appropriate patient education and support, the department may establish uniform standards, payment policies and reimbursement methodologies for any sites where drugs may be administered or dispensed under the fee for service program; provided that, subject to the availability of federal financial participation, when reimbursing covered entities, as defined under section 340B of the public health service act (42 U.S.C. §256b), for drugs that would otherwise be eligible for pricing under section 340B of the public health service act, the department shall examine all reasonably available methods for determining actual acquisition cost and the professional dispensing fee and, beginning in the fiscal year starting April 1, [~~2021~~] **2023**, review and adjust reimbursement for such drugs such that no sooner than April 1, [~~2023~~] **2025**, reimbursement shall be determined based on a method that the commissioner determines that utilizes the actual acquisition costs and professional dispensing fee.

§ 2. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2021.

PART D

Section 1. Paragraph (c) of subdivision 8 of section 2807-c of the public health law, as amended by section 2 of part KK of chapter 56 of the laws of 2020, is amended to read as follows:

(c) In order to reconcile capital related inpatient expenses included in rates of payment based on a budget to actual expenses and statistics for the rate period for a general hospital, rates of payment for a general hospital shall be adjusted to reflect the dollar value of the difference between capital related inpatient expenses included in the computation of rates of payment for a prior rate period based on a budg-

et and actual capital related inpatient expenses for such prior rate period, each as determined in accordance with paragraph (a) of this subdivision, adjusted to reflect increases or decreases in volume of service in such prior rate period compared to statistics applied in determining the capital related inpatient expenses component of rates of payment based on a budget for such prior rate period. For rates effective [~~on and after~~] April first, two thousand twenty **through March thirty-first, two thousand twenty-one**, the budgeted capital-related expenses add-on as described in paragraph (a) of this subdivision, based on a budget submitted in accordance to paragraph (a) of this subdivision, shall be reduced by five percent relative to the rate in effect on such date; and the actual capital expenses add-on as described in paragraph (a) of this subdivision, based on actual expenses and statistics through appropriate audit procedures in accordance with paragraph (a) of this subdivision shall be reduced by five percent relative to the rate in effect on such date. **For rates effective on and after April first, two thousand twenty-one, the budgeted capital-related expenses add-on as described in paragraph (a) of this subdivision, based on a budget submitted in accordance to paragraph (a) of this subdivision, shall be reduced by ten percent relative to the rate in effect on such date; and the actual capital expenses add-on as described in paragraph (a) of this subdivision, based on actual expenses and statistics through appropriate audit procedures in accordance with paragraph (a) of this subdivision shall be reduced by ten percent relative to the rate in effect on such date.** For any rate year, all reconciliation add-on amounts calculated on and after April first, two thousand twenty shall be reduced by ten percent, and all reconciliation recoupment amounts calculated on or after April first, two thousand twenty shall increase by ten percent. Notwithstanding any inconsistent provision of subparagraph (i) of paragraph (e) of subdivision nine of this section, capital related inpatient expenses of a general hospital included in the computation of rates of payment based on a budget shall not be included in the computation of a volume adjustment made in accordance with such subparagraph. Adjustments to rates of payment for a general hospital made pursuant to this paragraph shall be made in accordance with paragraph (c) of subdivision eleven of this section. Such adjustments shall not be carried forward except for such volume adjustment as may be authorized in accordance with subparagraph (i) of paragraph (e) of subdivision nine of this section for such general hospital.

ARTICLE 29-J

MEDICAL RESPITE PROGRAM

Section 2999-hh. Medical respite program.

§ 2999-hh. Medical respite program. 1. Definitions. As used in this article, the following terms shall have the following meanings, unless the context clearly otherwise requires:

(a) "Medical respite program" means a not-for-profit corporation certified pursuant to subdivision two of this section to serve recipients whose prognosis or diagnosis necessitates the receipt of:

(i) Temporary room and board; and

(ii) The provision or arrangement of the provision of health care and support services; provided, however, that the operation of a medical respite program shall be separate and distinct from any housing programs offered to individuals who do not qualify as recipients.

(b) "Recipient" means an individual who:

(i) Has a qualifying health condition that requires treatment or care;

(ii) Does not require hospital inpatient, observation unit, or emergency room level of care, or a medically indicated emergency department or observation visit; and

(iii) Is experiencing homelessness or at imminent risk of homelessness. A person shall be deemed "homeless" if they lack a fixed, regular and adequate nighttime residence in a location ordinarily used as a regular sleeping accommodation for people; provided, however, that an operator of a medical respite program shall be permitted to specialize by providing services to a subpopulation of homeless recipients if necessary to respond to community need or ensure the availability of a funding source that will support the medical respite program's operations, and such limitations are otherwise consistent with any rules or regulations made pursuant to this section.

2. Certification. (a) Notwithstanding any inconsistent provision of law, the commissioner may certify a not-for-profit corporation as an operator of a medical respite program.

(b) The commissioner may make regulations to establish procedures to review and approve applications for a certification pursuant to this article, which shall, at a minimum, specify standards for: recipient eligibility; medical respite program services that shall be provided; physical environment; staffing; and policies and procedures governing health and safety, length of stay, referrals, discharge, and coordination of care.

3. Operating standards; responsibility for standards. (a) Medical respite programs certified pursuant to this article shall:

(i) Provide recipients with temporary room and board; and

(ii) Provide, or arrange for the provision of, health care and support services to recipients.

4. Temporary accommodation. A medical respite program shall be considered a form of emergency shelter or temporary shelter for purposes of determining a recipient's eligibility for housing programs or benefits administered by the state or by a local social services district, including programs or benefits that support access to accommodations of a temporary, transitional, or permanent nature. No claim of recovery shall accrue against a recipient to recover the cost of care and services provided under this article. Care and services provided under this article shall not be deemed public benefits that would affect a recipient's immigration status under federal law.

No action taken against an operator under this subdivision shall affect an operator's other licenses or certifications; provided however, that the facts that gave rise to the revocation, suspension, limitation, annulment or denial of certification may also form the basis of a limitation, suspension of revocation of such other licenses or certifications.

(b) No medical respite program certification shall be revoked, suspended, limited, annulled or denied without a hearing; provided that a certification may be temporarily suspended or limited without a hearing for a period not in excess of thirty days upon written notice that the continuation of the medical respite program places the health or safety of the recipients in imminent danger, and that the action is in the interest of the recipients. However, the department shall not make a determination until the program has had a reasonable opportunity, following the initial determination that the program places the health or safety of the recipients in imminent danger, to correct its deficiencies and following this period, which shall be up to thirty calendar days, has been given written notice and opportunity for hearing.

(c) Nothing in this section shall prevent the commissioner from imposing sanctions or penalties on a medical respite program that are authorized under any other law or regulation.

7. The commissioner shall promulgate regulations to implement this article.

§ 2. This act shall take effect immediately and shall be deemed to have been in full force and effect on and after April 1, 2021.

§ 40. The superintendent of financial services shall establish rates for policies providing coverage for physicians and surgeons medical malpractice for the periods commencing July 1, 1985 and ending June 30, [~~2021~~] **2022**; provided, however, that notwithstanding any other provision of law, the superintendent shall not establish or approve any increase in rates for the period commencing July 1, 2009 and ending June 30, 2010. The superintendent shall direct insurers to establish segregated accounts for premiums, payments, reserves and investment income attributable to such premium periods and shall require periodic reports by the insurers regarding claims and expenses attributable to such periods to monitor whether such accounts will be sufficient to meet incurred claims and expenses. On or after July 1, 1989, the superintendent shall impose a surcharge on premiums to satisfy a projected deficiency that is attributable to the premium levels established pursuant to this section for such periods; provided, however, that such annual surcharge shall not exceed eight percent of the established rate until July 1, [~~2021~~] **2022**, at which time and thereafter such surcharge shall not exceed twenty-five percent of the approved adequate rate, and that such annual surcharges shall continue for such period of time as shall be sufficient to satisfy such deficiency. The superintendent shall not impose such surcharge during the period commencing July 1, 2009 and ending June 30, 2010. On and after July 1, 1989, the surcharge prescribed by this section shall be retained by insurers to the extent that they insured physicians and surgeons during the July 1, 1985 through June 30, [~~2021~~] **2022** policy periods; in the event and to the extent physicians and surgeons were insured by another insurer during such periods, all or a pro rata share of the surcharge, as the case may be, shall be remitted to such other insurer in accordance with rules and regulations to be promulgated by the superintendent. Surcharges collected from physicians and surgeons who were not insured during such policy periods shall be apportioned among all insurers in proportion to the premium written by each insurer during such policy periods; if a physician or surgeon was insured by an insurer subject to rates established by the superintendent during such policy periods, and at any time thereafter a hospital, health maintenance organization, employer or institution is responsible for responding in damages for liability arising out of such physician's or surgeon's practice of medicine, such responsible entity shall also remit to such prior insurer the equivalent amount that would then be collected as a surcharge if the physician or surgeon had continued to

remain insured by such prior insurer. In the event any insurer that provided coverage during such policy periods is in liquidation, the property/casualty insurance security fund shall receive the portion of surcharges to which the insurer in liquidation would have been entitled. The surcharges authorized herein shall be deemed to be income earned for the purposes of section 2303 of the insurance law. The superintendent, in establishing adequate rates and in determining any projected deficiency pursuant to the requirements of this section and the insurance law, shall give substantial weight, determined in his discretion and judgment, to the prospective anticipated effect of any regulations promulgated and laws enacted and the public benefit of stabilizing malpractice rates and minimizing rate level fluctuation during the period of time necessary for the development of more reliable statistical experience as to the efficacy of such laws and regulations affecting medical, dental or podiatric malpractice enacted or promulgated in 1985, 1986, by this act and at any other time. Notwithstanding any provision of the insurance law, rates already established and to be established by the superintendent pursuant to this section are deemed adequate if such rates would be adequate when taken together with the maximum authorized annual surcharges to be imposed for a reasonable period of time whether or not any such annual surcharge has been actually imposed as of the establishment of such rates.
