11 than 90 days before the date on which the school district will begin  
12 accepting applications from pupils to attend a public school  
13 outside the zone of attendance that a pupil is otherwise required to  
14 attend. The capacity determined pursuant to this paragraph must  
15 not be reduced during the period in which the school district  
16 accepts such applications unless a significant change in  
17 circumstances, which was unforeseeable at the time the capacity  
18 was published pursuant to this section, necessitates such a change,  
19 including, without limitation, a change in capacity due to an issue  
20 with the facilities of the public school. If the capacity of a public  
21 school is reduced during the period in which the school district  
22 accepts such applications, the board of trustees shall ensure that,  
23 not later than 15 days before the earliest date on which decisions  
24 on such applications are to be made, there is published on the

26 explanation of the change in circumstances which necessitated the  
27 reduction in capacity.

28           (d) Require a public school in the school district to enroll a  
29 pupil whose application submitted in accordance with the policies  
30 and procedures adopted pursuant to paragraph (a) has been

32 level of the pupil without taking into consideration the capacity of  
33 any specialized program.

34           (e) Allow a pupil whose application submitted in accordance  
35 with the policies and procedures adopted pursuant to paragraph  
36 (a) has been approved to permanently transfer to that public  
37 school without requiring an additional application in any  
38 subsequent school year.

39           (f) Adopt a uniform methodology for calculating the capacity  
40 of each public school within the school district for the purposes of  
41 paragraph (c). The methodology must be publicly documented,  
42 applied consistently across all public schools within the school  
43 district and published on the Internet website maintained by the  
44 school district. The methodology adopted by a school district must

1 calculate the capacity of each public school within the school  
2 district based on:

3 (1) Maximum building occupancy; or

4 (2) An occupancy level of not more than 1 person per 40

23 (e) The address at which the pupil resides; or

24 (f) Except as otherwise provided in this paragraph, whether a  
25 pupil has previously been subject to any disciplinary action. The  
26 board of trustees of a school district may deny the application of a  
27 pupil who, in the school year for which the application is  
28 submitted or in the immediately preceding school year, was  
29 suspended for 10 or more days or expelled.

30 6. If an application to attend a public school outside the zone  
31 of attendance that a pupil is otherwise required to attend is denied  
32 or no action is taken on the application, the parent or legal  
33 guardian of the pupil may appeal the denial or lack of action to  
34 the superintendent of the school district and he or she shall  
35 promptly approve or deny the application. The decision of the  
36 superintendent of the school district is final.

37 7. The board of trustees of a school district may accept gifts  
38 and grants to carry out the provisions of subsections 3 to 6,  
39 inclusive.

7 *“suspension” in NRS 392.4607.*

8           **Sec. 3.** The provisions of NRS 354.599 do not apply to any  
9 additional expenses of a local government that are related to the  
10 provisions of this act.

11          **Sec. 4.** 1. This section and section 3 of this act become  
12 effective upon passage and approval.

13          2. Sections 1, 1.5 and 2 of this act become effective:

14          (a) Upon passage and approval for the purpose of adopting any  
15 regulations and performing any other preparatory administrative  
16 tasks that are necessary to carry out the provisions of this act; and

17          (b) On July 1, 2026, for all other purposes.
