802 Open-Space Land Act (§ 10.1-1700 et seq.) for the purpose of preserving real property that is important for
803 its historical, architectural, or archaeological aspects, replacing restrictions on the use or development of the
804 land. If the easement is granted to a holder other than the Board, all terms and conditions of the easement
805 shall be reviewed by the Department to ensure that the easement accomplishes the perpetual preservation of
806 the property. Such other holder shall demonstrate to the Department that it has the capacity and expertise to
807 manage and enforce the terms of the easement.

808 G. The Director shall administer and manage the Fund and shall establish guidelines for applications,
809 evaluations, and recommendations to the Board for the award of grants from the Fund. In awarding grants,
810 the Board shall give primary consideration to the significance of the real property and the threat to and
811 integrity of features associated with such property. The Board shall also consider the applicant's financial
812 need, the ability of an applicant to provide matching funds, and the financial and administrative capacity of
813 the applicant to complete the project and maintain and manage the property in a manner that is consistent
814 with public investment and public interest, such as education, recreation, research, heritage tourism
815 promotion, or orderly community development. The Director shall make grant award recommendations to the
816 Board for approval by the Board. The Director shall incorporate the Conserve Virginia program, established
817 pursuant to § 10.1-104.6:1, into grant award recommendations to the Board, when appropriate.

818 **§ 10.1-2205.1. Policies for consultation with federally recognized tribes in the Commonwealth.**

819 A. The Department, with assistance from the Ombudsman for Tribal Consultation designated pursuant to
820 § 2.2-401.01, shall develop policies and procedures, to the extent permitted by law, to ensure an opportunity
821 for meaningful and appropriate written consultation with federally recognized ~~Tribal Nations in the~~
822 ~~Commonwealth~~ *tribes* regarding certain major actions or permits issued by the Department. The Department
823 shall designate an agency official to evaluate the adequacy of consultation and ensure that agency
824 consultation practices are consistent. Actions and permits appropriate for consultation shall include the
825 projects and actions set forth in subsection B. The policies shall define an appropriate means of notifying
826 federally recognized ~~Tribal Nations in the Commonwealth~~ *tribes* based on tribal preferences, ensure that
827 sufficient information and time is provided for the federally recognized ~~Tribal Nations in the Commonwealth~~
828 *tribes* to fully engage in consultation regarding developing informed opinions about the proposed action, and
829 establish procedures for the Department to provide feedback to the federally recognized ~~Tribal Nations in the~~
830 ~~Commonwealth~~ *tribes* to explain how their input was considered. Should feedback from the federally
831 recognized ~~Tribal Nations in the Commonwealth~~ *tribes* not be received by the deadline established in the
832 Department's policies and procedures, the consultation provisions of this section shall be deemed fulfilled.

833 B. The following actions and projects are subject to consultation as set forth in subsection A: (i) the
834 designation of historic districts, buildings, structures, or sites as historic landmarks pursuant to § 10.1-2206.1;
835 (ii) permits to conduct field investigations pursuant to § 10.1-2302; and (iii) burial permits for relocation of
836 human remains issued pursuant to § 10.1-2305.

837 C. *For the purposes of this section, the term "federally recognized tribe" has the same meaning as that*
838 *term is defined in § 2.2-6100.*

839 **§ 10.1-2206.1. Procedure for designating a historic district, building, structure, or site as a historic**
840 **landmark; National Register of Historic Places, National Historic Landmarks; historic district defined.**

841 A. In any county, city, or town where the Board proposes to designate a historic district, building,
842 structure, object, or site as a historic landmark, or where the Director proposes to nominate property to the
843 National Park Service for inclusion in the National Register of Historic Places or for designation as a
844 National Historic Landmark, the Department shall give written notice of the proposal to the governing body
845 and to the owner, owners, or the owner's agent, of property proposed to be so designated or nominated, and to
846 the owners, or their agents, of all abutting property and property immediately across the street or road from
847 the property. The Department shall also consult with any federally recognized ~~Tribal Nations in the~~
848 ~~Commonwealth~~ *tribe*, *as that term is defined in § 2.2-6100*, pursuant to § 10.1-2205.1 if the designation or
849 nomination is in a locality identified by the Ombudsman for Tribal Consultation pursuant to subdivision B 2
850 of § 2.2-401.01.

851 B. Prior to the designation or nomination of a historic district, the Department shall hold a public hearing
852 at the seat of government of the county, city, or town in which the proposed historic district is located or
853 within the proposed historic district. The public hearing shall be for the purpose of supplying additional
854 information to the Board and to the Director. The time and place of such hearing shall be determined in
855 consultation with a duly authorized representative of the local governing body and shall be scheduled at a
856 time and place that will reasonably allow for the attendance of the affected property owners. The Department

shall publish notice of the public hearing once a week for two successive weeks in a newspaper published or having general circulation in the county, city, or town. Such notice shall specify the time and place of the public hearing at which persons affected may appear and present their views, not less than six days nor more than 21 days after the second publication of the notice in such newspaper. In addition to publishing the notice, the Department shall give written notice of the public hearing at least five days before such hearing to the owner, owners, or the owner's agent, of each parcel of real property to be included in the proposed historic district, and to the owners, or their agents, of all abutting property and property immediately across the street or road from the included property. Notice required to be given to owners by this subsection may be given concurrently with the notice required to be given to the owners by subsection A. The Department shall make and maintain an appropriate record of all public hearings held pursuant to this section.

C. Any written notice required to be given by the Department to any person shall be deemed to comply with the requirements of this section if sent by first class mail to the last known address of such person as shown on the current real estate tax assessment books, provided that a representative of the Department shall make an affidavit that such mailings have been made.

D. The local governing body and property owners shall have 30 days from the date of the notice required by subsection A, or, in the case of a historic district, 30 days from the date of the public hearing required by subsection B to provide comments and recommendations, if any, to the Board and to the Director.

E. For the purposes of this chapter, a historic district means a geographically definable area that contains a significant concentration of historic buildings, structures, or sites having a common historical, architectural, archaeological, or cultural heritage, and which may contain local tax parcels having separate owners. Contributing properties within a registered district are historic landmarks by definition.

F. All regulations promulgated by the Director pursuant to § 10.1-2202 and all regulations promulgated by the Board pursuant to § 10.1-2205 shall be consistent with the provisions of this section.

§ 10.1-2214. Underwater historic property; penalty.

A. For purposes of this section, "underwater historic property" means any submerged shipwreck, vessel, cargo, tackle, or underwater archaeological specimen, including any object found at underwater refuse sites or submerged sites of former habitation, that has remained unclaimed on the state-owned subaqueous bottom and has historic value as determined by the Department.

B. Underwater historic property shall be preserved and protected and shall be the exclusive property of the Commonwealth. Preservation and protection of such property shall be the responsibility of all state agencies, including but not limited to the Department, the Virginia Institute of Marine Science, and the Virginia Marine Resources Commission. Insofar as may be practicable, such property shall be preserved, protected, and displayed for the public benefit within the county or city within which it is found or within a museum operated by a state agency.

C. It is unlawful for any person, firm, or corporation to conduct any type of recovery operations involving the removal, destruction, or disturbance of any underwater historic property without first applying for and receiving a permit from the Virginia Marine Resources Commission to conduct such operations pursuant to § 28.2-1203. If the Virginia Marine Resources Commission, after consultation with any federally recognized Tribal Nations in the Commonwealth tribe, as that term is defined in § 2.2-6100, pursuant to § 28.2-104.01, and with the concurrence of the Department and in consultation with the Virginia Institute of Marine Science and other concerned state agencies, finds that granting the permit is in the best interest of the Commonwealth, it shall grant the applicant a permit. The permit shall provide that all objects recovered shall be the exclusive property of the Commonwealth. The permit shall provide the applicant with a fair share of the objects recovered, or in the discretion of the Department, a reasonable percentage of the cash value of the objects recovered to be paid by the Department. Title to all objects recovered shall be retained by the Commonwealth unless or until they are released to the applicant by the Department. All recovery operations undertaken pursuant to a permit issued under this section shall be carried out under the general supervision of the Department and in accordance with § 28.2-1203 and in such a manner that the maximum amount of historical, scientific, archaeological, and educational information may be recovered and preserved in addition to the physical recovery of items. The Virginia Marine Resources Commission shall not grant a permit to conduct operations at substantially the same location described and covered by a permit previously granted if recovery operations are being actively pursued, unless the holder of the previously granted permit concurs in the grant of another permit.

D. The Department may seek a permit pursuant to this section and § 28.2-1203 to preserve and protect or recover any underwater historic property.

E. Any person violating the provisions of this section is guilty of a Class 1 misdemeanor and, in addition, shall forfeit to the Commonwealth any objects recovered.

§ 10.1-2305. Permit required for the archaeological excavation of human remains.

A. It is unlawful for any person to conduct any type of archaeological field investigation involving the removal of human skeletal remains or associated artifacts from any unmarked human burial regardless of age of an archaeological site and regardless of ownership without first receiving a permit from the Director.

B. Where unmarked burials are not part of a legally chartered cemetery, archaeological excavation of such

919 burials pursuant to a permit from the Director shall be exempt from the requirements of §§ 57-38.1 and 57-39
920 . However, such exemption shall not apply in the case of human burials within formally chartered cemeteries
921 that have been abandoned.

922 C. The Department shall be considered an interested party in court proceedings considering the
923 abandonment of legally constituted cemeteries or family graveyards with historic significance. A permit from
924 the Director is required if archaeological investigations are undertaken as a part of a court-approved removal
925 of a cemetery.

926 D. The Board shall promulgate regulations implementing this section that provide for appropriate public
927 notice prior to issuance of a permit, provide for appropriate treatment of excavated remains, the scientific
928 quality of the research conducted on the remains, and the appropriate disposition of the remains upon
929 completion of the research. Such regulations shall also require consultation with any federally recognized
930 ~~Tribal Nations in the Commonwealth~~ *tribe* pursuant to § 10.1-2205.1. When a burial permit would result in
931 the disturbance of a burial site of an individual that has a cultural affiliation with a particular federally
932 recognized ~~Tribal Nation in the Commonwealth~~ *tribe*, the Department shall consult and seek consensus with
933 such federally recognized ~~Tribal Nation in the Commonwealth~~ *tribe* in the consideration and drafting of the
934 permit document. The Department may carry out such excavations and research without a permit, provided
935 that it has complied with the substantive requirements of the regulations promulgated pursuant to this section.

936 E. Any interested party may appeal the Director's decision to issue a permit or to act directly to excavate
937 human remains to the local circuit court. Such appeal must be filed within 14 days of the Director's decision.

938 F. For the purposes of this section, "cultural affiliation" has the same definition as provided in 25 U.S.C. §
939 3001(2) of the federal Native American Graves Protection and Repatriation Act (25 U.S.C. § 3001 et seq.)
940 and its regulations. If doubt exists as to cultural affiliation, the federally recognized ~~Tribal Nations in the~~
941 ~~Commonwealth~~ *tribe* with potential cultural affiliation shall make the determination.

942 G. For the purposes of this section, the term "federally recognized tribe" has the same meaning as that
943 term is defined in § 2.2-6100.

944 **§ 15.2-4202. Definitions.**

945 For the purposes of this chapter:

946 "Commission" means a planning district commission. Planning district commissions are composed of the

955 applied, or the time as of which it is being construed, unless there is available an annual estimate of
956 population prepared by the Weldon Cooper Center for Public Service of the University of Virginia, which has
957 been filed with the Department of Housing and Community Development, in which event the estimate shall
958 govern.

959 **§ 15.2-4203. Organization of planning district commission.**

960 A. At any time after the establishment of the geographic boundaries of a planning district, the localities or
961 ~~Indian~~ *federally recognized tribes* embracing at least 45 percent of the population within the district acting by
962 their governing bodies may organize a planning district commission by written agreement. Any locality not a
963 party to such charter agreement shall continue as a part of the planning district, but, until such time as such
964 locality elects to become a part of the planning district commission as hereinafter provided, shall not be
965 represented in the composition of the membership of the planning district commission. Any ~~Indian~~ *federally*
966 *recognized tribe* (i) whose land is located within the boundaries of the planning district and (ii) that is not a
967 party to such charter agreement may elect to become part of the planning district commission at any time
968 after its formation, and may negotiate the terms of such membership with the planning district commission.
969 Whenever a planning district is created which contains only two counties, the governing body of either
970 county may organize a planning district commission in accordance with the provisions of this chapter if the
971 governing body of the other county does not agree to organize such a planning district commission.

972 B. The charter agreement shall set forth:

973 1. The name of the planning district. An entity organized as a planning district commission under this act
974 may employ the name "regional council" or "regional commission" as a substitute for the name "planning
975 district commission."

976 2. The locality in which its principal office shall be situated.

977 3. The effective date of the organization of the planning district commission.

978 4. The composition of the membership of the planning district commission. At least a majority of its

the General Assembly, with each county, city and town of more than 3,500 population having at least one representative. In any planning district other than planning district number 23, a town of 3,500 or less population may petition the planning district commission to be represented thereon. The planning district commission may, in its discretion, grant representation to such town by a majority vote of the members of the commission. Other members shall be qualified voters and residents of the district. In planning districts number 4 and 14, the membership may also include representatives of higher education institutions. Should the charter agreement, as adopted, so provide, an alternate may serve in lieu of one of the elected officials of each of the governing bodies of the participating localities.

5. The term of office of the members, their method of selection or removal and the method for the selection and the term of office of a chairman.

6. The voting rights of members. Such voting rights need not be equal and may be weighed on the basis of the population of the locality represented by the member, the aggregation of the voting rights of members representing one locality, or otherwise.

7. The procedure for amendment, for addition of other localities within the planning district which are not parties to the original charter agreement, and the withdrawal from the charter agreement by localities within the planning district electing to do so.

C. The governing body of any locality which is a member of the planning district commission may provide for compensation to be paid by it for its commission members, except for any full-time salaried employees of the locality. The amount of such compensation shall not exceed the amount fixed by the planning district commission.

Except as otherwise provided in this article, every parent, guardian, or other person in the Commonwealth having control or charge of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday shall, during the period of each year the public schools are in session and for the same number of days and hours per day as the public schools, cause such child to attend a public school or a private, denominational, or parochial school or have such child taught by a tutor or teacher of qualifications prescribed by the Board and approved by the division superintendent, or provide for home instruction of such child as described in § 22.1-254.1.

As prescribed in the regulations of the Board, the requirements of this section may also be satisfied by causing a child to attend an alternative program of study or work/study offered by a public, private, denominational, or parochial school or by a public or private degree-granting institution of higher education. Further, in the case of any five-year-old child who is subject to the provisions of this subsection, the requirements of this section may be alternatively satisfied by causing the child to attend any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational, or parochial educational pre-kindergarten program.

Instruction in the home of a child or children by the parent, guardian, or other person having control or charge of such child or children shall not be classified or defined as a private, denominational or parochial school.

The requirements of this section shall apply to (i) any child in the custody of the Department of Juvenile Justice or the Department of Corrections who has not passed his eighteenth birthday and (ii) any child whom the division superintendent has required to take a special program of prevention, intervention, or remediation as provided in subsection C of § 22.1-253.13:1 and in § 22.1-254.01. 1165 by competent medical evidence, or by reason of such pupil's reasonable apprehension for personal safety

1167 consideration of the recommendation of the principal and division superintendent, to be justified.

1168 C. Each local school board shall develop policies for excusing students who are absent by reason of
1169 observance of a religious holiday. Such policies shall ensure that a student shall not be deprived of any award
1170 or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or
1171 examination, for any which he missed by reason of such absence, if the absence is verified in a manner
1172 acceptable to the school board.

1414 bag or season limit during such day or season. However, any properly licensed person, or a person exempt
1415 from having to obtain a license, who has obtained such daily bag or season limit while hunting may assist
1416 others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives if the
1417 weapon in his possession is an unloaded firearm, a bow without a nocked arrow, an unloaded slingbow, an
1418 unloaded arrowgun, or an unloaded crossbow. Any properly licensed person, or person exempt from having
1419 to obtain a license, who has obtained such season limit prior to commencement of the hunt may assist others
1420 who are hunting game by calling game, retrieving game, handling dogs, or conducting drives, provided he

1434 vehicle.

1437 8. To set a trap where it would be likely to injure persons, dogs, stock, or fowl.

1438 9. To fail to visit all traps once each day and remove all animals caught, and immediately report to the
1439 landowner as to stock, dogs, or fowl that are caught and the date. However, the Director or his designee may
1440 authorize employees of federal, state, and local government agencies, and persons holding a valid
1441 Commercial Nuisance Animal Permit issued by the Department, to visit body-gripping traps that are
1442 completely submerged at least once every 72 hours, and the Board may adopt regulations permitting trappers
1443 to visit traps less frequently under specified conditions. The Board shall adopt regulations permitting trappers
1444 to use remote trap-checking technology to check traps under specified conditions.

1446 transport, cause to be transported, by any means whatever, receive for transportation or export, or import, at
1447 any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as
1448 specifically permitted by law and only by the manner or means and within the numbers stated. However, the
1449 provisions of this section shall not be construed to prohibit the (i) use or transportation of legally taken turkey
1450 carcasses, or portions thereof, for the purposes of making or selling turkey callers; (ii) the manufacture or sale
1451 of implements, including tools or utensils made from legally harvested deer skeletal parts, including antlers;
1452 (iii) the possession of shed antlers; or (iv) the possession, manufacture, or sale of other parts or implements
1453 authorized by regulations adopted by the Board.

1454 11. To offer for sale, sell, offer to purchase, or purchase, at any time or in any manner, any wild bird or
1455 wild animal or the carcass or any part thereof, except as specifically permitted by law, including subsection D
1456 of § 29.1-553. However, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal
1457 Revenue Code that is (i) organized to provide wild game as food to the hungry and (ii) authorized by the
1458 Department to possess, transport, and distribute donated or unclaimed meat to the hungry may pay a
1459 processing fee in order to obtain such meat. Such fee shall not exceed the actual cost for processing the meat.
1460 In addition, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code
1461 that is (a) organized to support wildlife habitat conservation and (b) approved by the Department shall be
1462 allowed to offer wildlife mounts that have undergone the taxidermy process for sale in conjunction with
1463 fundraising activities. A violation of this subdivision shall be punishable as provided in § 29.1-553.

1464 12. To offer for sale, sell, offer to purchase, or purchase a hunt guaranteeing the killing of a deer, bear, or
1465 wild turkey. Nothing in this subdivision shall prevent a landowner from leasing land for hunting. A violation
1466 of this subdivision shall be punishable as provided in § 29.1-553.

1467 B. Notwithstanding any other provision of this article, any American Indian who produces verification
1468 that he is an enrolled member of a *Virginia recognized tribe, as that term is defined in § 2.2-6100, or other*
1469 *tribe recognized by the Commonwealth, another U.S. state, or the U.S. federal government*, may possess,
1470 offer for sale, or sell to another American Indian, or offer to purchase or purchase from another American
1471 Indian, parts of legally obtained fur-bearing animals, nonmigratory game birds, and game animals, except
1472 bear. Such legally obtained parts shall include antlers, hooves, feathers, claws, and bones.

1473 "Verification" as used in this section shall include (i) display of a valid tribal identification card, (ii)

confirmation through a central tribal registry, (iii) a letter from a tribal chief or council, or (iv) certification from a tribal office that the person is an enrolled member of the tribe.

C. Notwithstanding any other provision of this chapter, the Department may authorize the use of snake exclusion devices by public utilities at their transmission or distribution facilities and the incidental taking of snakes resulting from the use of such devices.

D. A violation of subdivisions A 1 through 10 shall be punishable as a Class 3 misdemeanor.

Certified copies may be issued by county and city registrars only while the original record is in their possession, except that at the option of the county or city registrar true and complete copies of death certificates may be retained and certified copies of such records may be issued by the county or city registrar.

B. A certified copy of a vital record or any part thereof issued in accordance with subsection A shall be considered for all purposes the same as the original and shall be prima facie evidence of the facts therein stated, provided that the evidentiary value of a vital record filed more than one year after the event or a vital record which has been amended shall be determined by the judicial or administrative body or official before whom the certificate is offered as evidence.

C. The federal agency responsible for national vital statistics may be furnished such copies or other data from the system of vital records as it may require for national statistics if such federal agency shares in the cost of collecting, processing and transmitting such data. Such data may be used for research and medical investigations of public health importance. No other use of such data shall be made by the federal agency unless authorized by the State Registrar.

D. Other federal, state and local, public or private agencies or persons in the conduct of their official duties may, upon request and payment of a reasonable fee, be furnished copies or other data from the system of vital records for statistical or administrative purposes upon such terms or conditions as may be prescribed by the Board. Such copies or other data shall not be used for purposes other than those for which they were requested unless so authorized by the State Registrar.

In promulgating regulations relating to the terms or conditions for public or private agencies or persons obtaining copies of death certificates in the conduct of their official duties, the Board shall include within its definition of "legal representative" (i) any attorney licensed to practice law in Virginia, upon presentation of his bar number and evidence of need to obtain such copy; and (ii) any funeral director or funeral service licensee licensed to practice by the Board of Funeral Directors and Embalmers, upon presentation of evidence to so practice and evidence of being in charge of final disposition of the registrant's dead human remains or cremains or evidence of need to obtain such copy.

E. No person shall prepare or issue any certificate which purports to be an original or certified copy of a vital record except as authorized in this chapter or regulations adopted hereunder.

F. Certified copies of birth records filed before July 1, 1960, containing statements of racial designation on the reverse thereof shall be issued without such statement as a part of the certification; nor for this purpose solely shall such certification be marked "amended."

Any American Indian or Native American whose certified copy of a birth record filed before July 1, 1960, contains a racial designation that is incorrect may obtain, without paying a fee, one certified copy of his birth record from which such incorrect racial designation has been removed. Such certification shall not be marked "amended" solely for this reason.

G. With the increased fees to be charged for vital records and the additional deposits to the Vital Statistics Automation Fund, the Board of Health shall establish, within the district health departments, a statewide system for decentralizing certification of vital records, when such records are prepared or issued from data in the custody of the State Registrar and the Board of Health. Such system shall include the Department of Motor Vehicles pursuant to the authorization in subsection A.

§ 36-105.5. Enforcement of Building Code on American Indian reservations.

A. Recognizing the unique relationship between the Commonwealth and certain of its state-recognized Indian Virginia recognized tribes, and notwithstanding any other provision of law, neither the Commonwealth nor any locality therein is responsible for the enforcement of the provisions of the Uniform Statewide Building Code (§ 36-97 et seq.) on any Indian reservation of a Virginia recognized by the

1535 ~~Commonwealth~~ *tribe* whereupon a ~~state-recognized Indian~~ *Virginia recognized* tribe has, by duly enacted
1536 tribal ordinance, adopted the Uniform Statewide Building Code and (i) assumed sole responsibility for
1537 existing buildings and new construction on the reservation and (ii) for purposes of enforcing the ordinance,
1538 retained firms or individuals to function as the building official on such reservation.

1539 B. Nothing in this section shall be construed to confer or infer responsibility or liability on any party for
1540 any action undertaken prior to July 1, 2015.

1541 C. *For the purposes of this section, the term "Virginia recognized tribe" has the same meaning as that*

1559 Code of 1986, as amended.

1560 "Local employee" means any officer or employee of a political subdivision and includes "special
1561 employees," which means a county or city treasurer, commissioner of revenue, attorney for the
1562 Commonwealth, clerk of court, sheriff, and a deputy or employee of any such officer.

1568 "Political subdivision" includes an instrumentality of the Commonwealth or one or more of its political
1569 subdivisions, or of the Commonwealth and one or more of its political subdivisions, but only if such
1570 instrumentality is a juristic entity which is legally separate and distinct from the Commonwealth or a political
1571 subdivision and only if its employees are not by virtue of their relation to such juristic entity employees of the
1572 Commonwealth or a political subdivision. "Political subdivision" includes ~~Indian~~ *Virginia recognized* tribes
1573 *as that term is defined in § 2.2-6100.*

1584 meaning of that act.

1585 **§ 56-46.1. Commission to consider environmental, economic, and improvements in service**
1586 **reliability factors in approving construction of electrical utility facilities; approval required for**
1587 **construction of certain electrical transmission lines; notice and hearings.**

1588 A. Whenever the Commission is required to approve the construction of any electrical utility facility, it
1589 shall give consideration to the effect of that facility on the environment and establish such conditions as may
1590 be desirable or necessary to minimize adverse environmental impact. In order to avoid duplication of
1591 governmental activities, any valid permit or approval required for an electric generating plant and associated
1592 facilities issued or granted by a federal, state, or local governmental entity charged by law with responsibility
1593 for issuing permits or approvals regulating environmental impact and mitigation of adverse environmental
1594 impact or for other specific public interest issues such as building codes, transportation plans, and public
1595 safety, whether such permit or approval is granted prior to or after the Commission's decision, shall be

deemed to satisfy the requirements of this section with respect to all matters that (i) are governed by the permit or approval or (ii) are within the authority of, and were considered by, the governmental entity in issuing such permit or approval, and the Commission shall impose no additional conditions with respect to such matters. Nothing in this section shall affect the ability of the Commission to keep the record of a case open. Nothing in this section shall affect any right to appeal such permits or approvals in accordance with applicable law. In the case of a proposed facility located in a region that was designated as of July 1, 2001, as serious nonattainment for the one-hour ozone standard as set forth in the federal Clean Air Act, the Commission shall not issue a decision approving such proposed facility that is conditioned upon issuance of any environmental permit or approval. In every proceeding under this subsection, the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection; and if requested by any county or municipality in which the facility is proposed to be built, to local comprehensive plans that have been adopted pursuant to Article 3 (§ 15.2-2223 et seq.) of Chapter 22 of Title 15.2. Additionally, the Commission (a) shall consider the effect of the proposed facility on economic development within the Commonwealth, including but not limited to furtherance of the economic and job creation objectives of the Commonwealth Clean Energy Policy set forth in § 45.2-1706.1, and (b) shall consider any improvements in service reliability that may result from the construction of such facility.

B. Subject to the provisions of subsection J, no electrical transmission line of 138 kilovolts or more shall be constructed unless the State Corporation Commission shall, after at least 30 days' advance notice by (i) publication in a newspaper or newspapers of general circulation in the counties and municipalities through which the line is proposed to be built, (ii) written notice to the governing body of each such county and municipality, and (iii) causing to be sent a copy of the notice by first class mail to all owners of property within the route of the proposed line, as indicated on the map or sketch of the route filed with the Commission, which requirement shall be satisfied by mailing the notice to such persons at such addresses as are indicated in the land books maintained by the commissioner of revenue, director of finance or treasurer of the county or municipality, approve such line. Such notices shall include a written description of the proposed route the line is to follow, as well as a map or sketch of the route including a digital geographic information system (GIS) map provided by the public utility showing the location of the proposed route. The Commission shall make GIS maps provided under this subsection available to the public on the Commission's website. Such notices shall be in addition to the advance notice to the chief administrative officer of the county or municipality required pursuant to § 15.2-2202.

As a condition to approval the Commission shall determine that the line is needed and that the corridor or route chosen for the line will avoid or reasonably minimize adverse impact to the greatest extent reasonably practicable on the scenic assets, historic and cultural resources recorded with the Department of Historic Resources, cultural resources identified by federally recognized ~~Tribal Nations in the Commonwealth~~ *tribes*, and environment of the area concerned. To assist the Commission in this determination, as part of the application for Commission approval of the line, the applicant shall summarize its efforts to avoid or reasonably minimize adverse impact to the greatest extent reasonably practicable on the scenic assets, historic resources recorded with the Department of Historic Resources, and environment of the area concerned. In making the determinations about need, corridor or route, and method of installation, the Commission shall verify the applicant's load flow modeling, contingency analyses, and reliability needs presented to justify the new line and its proposed method of installation. If the local comprehensive plan of an affected county or municipality designates corridors or routes for electric transmission lines and the line is proposed to be constructed outside such corridors or routes, in any hearing the county or municipality may provide adequate evidence that the existing planned corridors or routes designated in the plan can adequately serve the needs of the company. Additionally, the Commission shall consider, upon the request of the governing body of any county or municipality in which the line is proposed to be constructed, (a) the costs and economic benefits likely to result from requiring the underground placement of the line and (b) any potential impediments to timely construction of the line.

C. If, prior to such approval, any interested party shall request a public hearing, the Commission shall, as soon as reasonably practicable after such request, hold such hearing or hearings at such place as may be designated by the Commission. In any hearing, the public service company shall provide adequate evidence that existing rights-of-way cannot adequately serve the needs of the company.

If, prior to such approval, written requests therefor are received from the governing body of any county or municipality through which the line is proposed to be built or from 20 or more interested parties, the Commission shall hold at least one hearing in the area that would be affected by construction of the line, for the purpose of receiving public comment on the proposal. If any hearing is to be held in the area affected, the Commission shall direct that a copy of the transcripts of any previous hearings held in the case be made available for public inspection at a convenient location in the area for a reasonable time before such local hearing.

D. As used in this section, unless the context requires a different meaning:

"Environment" or "environmental" shall be deemed to include in meaning "historic," as well as a

1658 consideration of the probable effects of the line on the health and safety of the persons in the area concerned.

1659 *"Federally recognized tribe" has the same meaning as that term is defined in § 2.2-6100.*

1660 "Interested parties" includes the governing bodies of any counties or municipalities through which the line
1661 is proposed to be built and persons residing or owning property in each such county or municipality.

1662 "Public utility" means a public utility as defined in § 56-265.1.

1663 "Qualifying facilities" means a cogeneration or small power production facility that meets the criteria of
1664 18 C.F.R. Part 292.

1665 "Reasonably accommodate requests to wheel or transmit power" means:

1666 1. That the applicant will make available to new electric generation facilities constructed after January 9,
1667 1991, qualifying facilities and other nonutilities, a minimum of one-fourth of the total megawatts of the
1668 additional transmission capacity created by the proposed line, for the purpose of wheeling to public utility
1669 purchasers the power generated by such qualifying facilities and other nonutility facilities which are awarded
1670 a power purchase contract by a public utility purchaser in compliance with applicable state law or regulations
1671 governing bidding or capacity acquisition programs for the purchase of electric capacity from nonutility
1672 sources, provided that the obligation of the applicant will extend only to those requests for wheeling service
1673 made within the 12 months following certification by the State Corporation Commission of the transmission
1674 line and with effective dates for commencement of such service within the 12 months following completion
1675 of the transmission line; and

1676 2. That the wheeling service offered by the applicant, pursuant to subdivision 1, will reasonably further
1677 the purposes of the Public Utilities Regulatory Policies Act of 1978 (P. L. 95-617), as demonstrated by
1678 submitting to the Commission, with its application for approval of the line, the cost methodologies, terms,
1679 conditions, and dispatch and interconnection requirements the applicant intends, subject to any applicable
1680 requirements of the Federal Energy Regulatory Commission, to include in its agreements for such wheeling
1681 service.

1682 E. In the event that, at any time after the giving of the notice required in subsection B, it appears to the
1683 Commission that consideration of a route or routes significantly different from the route described in the
1684 notice is desirable, the Commission shall cause notice of the new route or routes to be published and mailed
1685 in accordance with subsection B. The Commission shall thereafter comply with the provisions of this section
1686 with respect to the new route or routes to the full extent necessary to give affected localities, federally
1687 recognized ~~Tribal Nations in the Commonwealth~~ *tribes*, and interested parties in the newly affected areas the
1688 same protection afforded to affected localities and interested parties affected by the route described in the
1689 original notice.

1690 F. Approval of a transmission line pursuant to this section shall be deemed to satisfy the requirements of §
1691 15.2-2232 and local zoning ordinances with respect to such transmission line.

1692 G. The Commission shall enter into a memorandum of agreement with the Department of Environmental
1693 Quality regarding the coordination of their reviews of the environmental impact of electric generating plants
1694 and associated facilities. If the proposed plants or associated facilities are in a locality identified by the
1695 Ombudsman for Tribal Consultation pursuant to subdivision B 2 of § 2.2-401.01, such consultation
1696 information shall be included in the memorandum of agreement.

1697 H. An applicant that is required to obtain (i) a certificate of public convenience and necessity from the
1698 Commission for any electric generating facility, electric transmission line, natural or manufactured gas
1699 transmission line as defined in 49 C.F.R. § 192.3, or natural or manufactured gas storage facility (hereafter,
1700 an energy facility) and (ii) an environmental permit for the energy facility that is subject to issuance by any
1701 agency or board within the Secretariat of Natural and Historic Resources, may request a pre-application
1702 planning and review process. In any such request to the Commission or the Secretariat of Natural and
1703 Historic Resources, the applicant shall identify the proposed energy facility for which it requests the pre-
1704 application planning and review process. The Commission, the Department of Environmental Quality, the
1705 Marine Resources Commission, the Department of Wildlife Resources, the Department of Historic
1706 Resources, the Department of Conservation and Recreation, and other appropriate agencies of the
1707 Commonwealth shall participate in the pre-application planning and review process. Participation in such
1708 process shall not limit the authority otherwise provided by law to the Commission or other agencies or boards
1709 of the Commonwealth. The Commission and other participating agencies and boards of the Commonwealth
1710 may invite federal and local governmental entities charged by law with responsibility for issuing permits or
1711 approvals and potentially impacted federally recognized ~~Tribal Nations in the Commonwealth~~ *tribes* to
1712 participate in the pre-application planning and review process. Through the pre-application planning and
1713 review process, the applicant, the Commission, participating agencies and boards of the Commonwealth, and
1714 potentially impacted federally recognized ~~Tribal Nations in the Commonwealth~~ *tribes* shall identify the
1715 potential impacts and approvals that may be required and shall develop a plan that will provide for an
1716 efficient and coordinated review of the proposed energy facility. The plan shall include (a) a list of the
1717 permits or other approvals likely to be required based on the information available, (b) a specific plan and
1718 preliminary schedule for the different reviews, (c) a plan for coordinating those reviews and the related public

comment process, and (d) designation of points of contact, either within each agency or for the Commonwealth as a whole, to facilitate this coordination. The plan shall be made readily available to the public and shall be maintained on a dedicated website to provide current information on the status of each component of the plan and each approval process including opportunities for public comment.

I. The provisions of this section shall not apply to the construction and operation of a small renewable energy project, as defined in § 10.1-1197.5, by a utility regulated pursuant to this title for which the Department of Environmental Quality has issued a permit by rule pursuant to Article 5 (§ 10.1-1197.5 et seq.) of Chapter 11.1 of Title 10.1.

J. Approval under this section shall not be required for any transmission line for which a certificate of public convenience and necessity is not required pursuant to subdivision A of § 56-265.2.

"Affiliate" means any person that controls, is controlled by, or is under common control with an electric utility.

"Aggregator" means a person that, as an agent or intermediary, (i) offers to purchase, or purchases, electric energy or (ii) offers to arrange for, or arranges for, the purchase of electric energy, for sale to, or on behalf of, two or more retail customers not controlled by or under common control with such person. The following activities shall not, in and of themselves, make a person an aggregator under this chapter: (i) furnishing legal services to two or more retail customers, suppliers or aggregators; (ii) furnishing educational, informational, or analytical services to two or more retail customers, unless direct or indirect compensation for such services is paid by an aggregator or supplier of electric energy; (iii) furnishing educational, informational, or analytical services to two or more suppliers or aggregators; (iv) providing default service under § 56-585; (v) engaging in activities of a retail electric energy supplier, licensed pursuant to § 56-587, which are authorized by such supplier's license; and (vi) engaging in actions of a retail customer, in common with one or more other such retail customers, to issue a request for proposal or to negotiate a purchase of electric energy for consumption by such retail customers.

"Curtailement" means inducing retail customers to reduce load during times of peak demand so as to ease the burden on the electrical grid.

"Customer choice" means the opportunity for a retail customer in the Commonwealth to purchase electric energy from any supplier licensed and seeking to sell electric energy to that customer.

"Demand response" means measures aimed at shifting time of use of electricity from peak-use periods to times of lower demand by inducing retail customers to curtail electricity usage during periods of congestion and higher prices in the electrical grid.

"Distribute," "distributing," or "distribution of" electric energy means the transfer of electric energy through a retail distribution system to a retail customer.

"Distributor" means a person owning, controlling, or operating a retail distribution system to provide electric energy directly to retail customers.

"Electric distribution grid transformation project" means a project associated with electric distribution infrastructure, including related data analytics equipment, that is designed to accommodate or facilitate the integration of utility-owned or customer-owned renewable electric generation resources with the utility's electric distribution grid or to otherwise enhance electric distribution grid reliability, electric distribution grid security, customer service, or energy efficiency and conservation, including advanced metering infrastructure; intelligent grid devices for real time system and asset information; automated control systems for electric distribution circuits and substations; communications networks for service meters; intelligent grid devices

1780 and other distribution equipment; distribution system hardening projects for circuits, other than the
1781 conversion of overhead tap lines to underground service, and substations designed to reduce service outages
1782 or service restoration times; physical security measures at key distribution substations; cyber security
1783 measures; energy storage systems and microgrids that support circuit-level grid stability, power quality,
1784 reliability, or resiliency or provide temporary backup energy supply; electrical facilities and infrastructure
1785 necessary to support electric vehicle charging systems; LED street light conversions; and new customer
1786 information platforms designed to provide improved customer access, greater service options, and expanded
1787 access to energy usage information.

1788 "Electric utility" means any person that generates, transmits, or distributes electric energy for use by retail
1789 customers in the Commonwealth, including any investor-owned electric utility, cooperative electric utility, or
1790 electric utility owned or operated by a municipality.

1791 "Electrification" means measures that (i) electrify space heating, water heating, cooling, drying, cooking,
1792 industrial processes, and other building and industrial end uses that would otherwise be served by onsite,
1793 nonelectric fuels, provided that the electrification measures reduce site energy consumption; (ii) to the
1794 maximum extent practical, seek to combine with federally authorized customer rebates for heat pump
1795 technology; and (iii) for those measures that provide measurable and verifiable energy savings to low-income
1796 customers or elderly customers, to the maximum extent practical, seek to combine with either
1797 contemporaneously installed measures or previously installed measures that are or were provided under
1798 federally funded weatherization programs or state-provided, locality-provided, or utility-provided energy
1799 efficiency programs.

1800 "Energy efficiency program" means a program that reduces the total amount of energy that is required for
1801 the same process or activity implemented after the expiration of capped rates but does not include
1802 electrification of any process or activity primarily fueled by natural gas. Energy efficiency programs include
1803 equipment, physical, or program change designed to produce measured and verified reductions in the amount
1804 of site energy required to perform the same function and produce the same or a similar outcome. Energy
1805 efficiency programs may include (i) electrification; (ii) programs that result in improvements in lighting
1806 design, heating, ventilation, and air conditioning systems, appliances, building envelopes, and industrial and
1807 commercial processes; (iii) measures, such as the installation of advanced meters, implemented or installed
1808 by utilities, that reduce fuel use or losses of electricity and otherwise improve internal operating efficiency in
1809 generation, transmission, and distribution systems; and (iv) customer engagement programs that result in
1810 measurable and verifiable energy savings that lead to efficient use patterns and practices. Energy efficiency
1811 programs include demand response, combined heat and power and waste heat recovery, curtailment, or other
1812 programs that are designed to reduce site energy consumption so long as they reduce the total amount of site
1813 energy that is required for the same process or activity. Utilities shall be authorized to install and operate such
1814 advanced metering technology and equipment on a customer's premises; however, nothing in this chapter
1815 establishes a requirement that an energy efficiency program be implemented on a customer's premises and be
1816 connected to a customer's wiring on the customer's side of the inter-connection without the customer's
1817 expressed consent. Electricity consumption increases that result from Commission-approved electrification
1818 measures shall not be considered as a reduction in energy savings under the energy savings requirements set
1819 forth in subsection B of § 56-596.2. Utilities may apply verified total site energy reductions that are
1820 attributable to Commission-approved electrification measures to the energy savings requirements set forth in
1821 subsection B of § 56-596.2, subject to a conversion of British thermal unit-based energy savings to an
1822 equivalent kilowatt-hour-based energy savings, which conversion shall be subject to Commission approval.

1823 "Generate," "generating," or "generation of" electric energy means the production of electric energy.

1824 "Generator" means a person owning, controlling, or operating a facility that produces electric energy for
1825 sale.

1828 through an electric geothermal heat pump or a system of electric geothermal heat pumps interconnected with
1829 any geothermal extraction facility that is (i) a closed loop or a series of closed loop systems in which fluid is
1830 permanently confined within a pipe or tubing and does not come in contact with the outside environment or
1831 (ii) an open loop system in which ground or surface water is circulated in an environmentally safe manner
1832 directly into the facility and returned to the same aquifer or surface water source;

1833 2. Meets or exceeds the current federal Energy Star product specification standards;

1834 3. Replaces or displaces less efficient space or water heating systems, regardless of fuel type;

1835 4. Replaces or displaces less efficient space cooling systems that do not meet federal Energy Star product
1836 specification standards; and

"Independent system operator" means a person that may receive or has received, by transfer pursuant to this chapter, any ownership or control of, or any responsibility to operate, all or part of the transmission systems in the Commonwealth.

"In the public interest," for purposes of assessing energy efficiency programs prior to the 2029 program year, describes an energy efficiency program if the Commission determines that the net present value of the benefits exceeds the net present value of the costs as determined by not less than any three of the following four tests: (i) the Total Resource Cost Test; (ii) the Utility Cost Test (also referred to as the Program Administrator Test); (iii) the Participant Test; and (iv) the Ratepayer Impact Measure Test. Such determination shall include an analysis of all four tests, and a program or portfolio of programs shall be approved if the net present value of the benefits exceeds the net present value of the costs as determined by not less than any three of the four tests. For programs proposed for the 2029 program year and all subsequent years, the Commission shall establish targets pursuant to subdivision B 4 of § 56-596.2, and a program shall be approved if the Commission determines it is cost-effective pursuant to applicable Commission regulations and that the net present value of the benefits exceeds the net present value of the costs as determined by the Total Resource Cost Test. If the Commission determines that an energy efficiency program or portfolio of programs is not in the public interest, its final order shall include all work product and analysis conducted by the Commission's staff in relation to that program, including testimony relied upon by the Commission's staff, that has bearing upon the Commission's decision. If the Commission reduces the proposed budget for a program or portfolio of programs, its final order shall include an analysis of the impact such budget reduction has upon the cost-effectiveness of such program or portfolio of programs. An order by the Commission (a) finding that a program or portfolio of programs is not in the public interest or (b) reducing the proposed budget for any program or portfolio of programs shall adhere to existing protocols for extraordinarily sensitive information. In addition, an energy efficiency program may be deemed to be "in the public interest" if the program (1) provides measurable and verifiable energy savings to low-income customers or elderly customers or (2) is a pilot program of limited scope, cost, and duration, that is intended to determine whether a new or substantially revised program or technology would be cost-effective.
