---

**Introduced by Committee on Budget and Fiscal Review**

January 23, 2025

---

*An act relating to the Budget Act of 2025. An act to amend Section 19878 of, and to add Sections 19816.22 and 20825.18 to, the Government Code, to amend Section 1872.83 of the Insurance Code, and to amend Section 62.5 of, to add Section 6717.2 to, and to repeal Section 62.6 of, the Labor Code, relating to labor, and making an appropriation therefor, to take effect immediately, bill related to the budget.*

LEGISLATIVE COUNSEL'S DIGEST

SB 129, as amended, Committee on Budget and Fiscal Review.  
~~Budget Act of 2025. Labor.~~

*(1) Existing law creates the Department of Human Resources in an effort to better serve the human resources and personnel needs of the state. Existing law establishes the In-Home Supportive Services (IHSS) program, which is administered by the State Department of Social Services, counties, and other entities, under which qualified aged, blind, or disabled persons are provided with supportive services in order to permit them to remain in their own homes.*

*This bill would require the Department of Human Resources, in collaboration with the State Department of Social Services, to appoint a statewide bargaining advisory committee to review the full cost of care for IHSS provided through the IHSS program under a statewide collective bargaining model. The bill would require the advisory committee to submit reports, between January 1, 2027, and January 1, 2029, to the Legislature containing completed analyses covering key*

issues associated with any transition of IHSS to statewide bargaining, as specified. To inform the advisory committee's work, the bill would require the State Department of Social Services to provide a report to the advisory committee on approaches for cost containment associated with a statewide collective bargaining model in the In-Home Supportive Services program, no later than July 1, 2027. The bill would authorize the Department of Human Resources to enter into any contracts necessary for the performance of its duties under these provisions. The bill would state the intent of the Legislature that, upon submission of the completed analyses, the process of transitioning IHSS to a statewide collective bargaining model may commence and this may occur no earlier than January 1, 2030.

(2) Existing law, the State Civil Service Act, regulates employment with the state and vests in the Department of Human Resources all powers, duties, and authority necessary to operate the state civil service system. Existing law requires the department to designate positions of a high administrative and policy-influencing character for inclusion in or removal from the category of civil service appointment called "career executive assignments," subject to review by the State Personnel Board, as provided.

Under existing law, when an employee is disabled, whether temporarily or permanently, the employee is entitled, subject to certain conditions, to receive specified nonindustrial disability benefits, unless a memorandum of understanding conflicts with this requirement. Existing law defines "employee" for purposes of those provisions as a permanent or probationary full-time, part-time, or intermittent state officer or employee, as specified.

This bill would, effective October 1, 2025, for a disability benefit period commencing on or after July 1, 2025, additionally include a state officer or employee appointed to a career executive assignment in that definition of "employee." The bill would require these employees claiming benefits for a certain disability benefit period to file a completed claim no later than 41 days following the effective date of this provision.

(3) The Public Employees' Retirement Law (PERL) creates the Public Employees' Retirement System (PERS) for the purpose of providing pensions and benefits to state employees and their beneficiaries and prescribes the rights and duties of employers participating in the system. Under PERL, benefits are funded by investment income and employer and employee contributions, which are deposited into the Public

*Employees' Retirement Fund, a continuously appropriated trust fund administered by the system's board of administration.*

*PERL prescribes methods for the calculation and payment of the state employer contribution for its employees who are PERS members. PERL provides for an annual adjustment of the state's contribution in the budget and quarterly appropriations to the Public Employees' Retirement Fund from the General Fund and other funds that are responsible for payment of the employer contribution.*

*Existing law makes additional General Fund appropriations to the Public Employees' Retirement Fund for the 2020–21, 2021–22, 2022–23, 2023–24, and 2024–25 fiscal years. Supplemental payments connected with appropriations for those fiscal years are to be apportioned to the state employee member categories generally, as directed by the Department of Finance, and to specified state employee member categories, including to the state miscellaneous member category, the industrial member category, the state safety member category, and the state peace officer/firefighter member category.*

*The California Constitution establishes the Budget Stabilization Account in the General Fund and requires the Controller, in each fiscal year, to transfer from the General Fund to the Budget Stabilization Account amounts that include a sum equal to 1.5% of the estimated amount of General Fund revenues for that fiscal year. These provisions further require, until the 2029–30 fiscal year, that the Legislature appropriate a percentage of these moneys, the amount of which is generated pursuant to specified calculations, for certain obligations and purposes, including addressing unfunded liabilities for state-level pension plans.*

*This bill would appropriate \$584,000,000 from the General Fund for the purposes identified in the constitutional provisions described above, to supplement the state's appropriation to the Public Employees' Retirement Fund. The bill would specify that this appropriation represents a portion of the amount identified in a specific provision of the Budget Act of 2025. The bill would require the Department of Finance to provide the Controller with a schedule establishing the timing of specific transfers. The bill would require the supplemental payment to the Public Employees' Retirement Fund to be apportioned to specified state employee member categories, not to exceed \$273,983,000 to the state miscellaneous member category, \$16,164,000 to the state industrial member category, \$32,150,000 to the state safety member category, and \$261,703,000 to the state peace officer/firefighter*

*member category. The bill would require the appropriation described above to be applied to the unfunded state liabilities for the state employee member categories that are in excess of the base amounts for the 2025–26 fiscal year.*

*(4) Existing law establishes the Department of Industrial Relations in the Labor and Workforce Development Agency to perform specified functions, including fostering, promoting, and developing the welfare of the wage earners of California, to improve their working conditions and to advance their opportunities for profitable employment.*

*Existing law requires the director of the department to levy and collect assessments from specified employers, as specified, for purposes of collecting the aggregate amount determined by the Fraud Assessment Commission pursuant to specified provisions. Existing law requires revenues derived from the assessments to be deposited in the Workers' Compensation Fraud Account in the Insurance Fund and to only be expended, upon appropriation by the Legislature, for the investigation and prosecution of workers' compensation fraud and the willful failure to secure payment of workers' compensation, as prescribed. Existing law requires the director to promulgate reasonable rules and regulations governing the manner of collection of the assessments, as specified.*

*This bill would make technical changes to the above-described assessment provisions, and conforming changes related to those provisions.*

*Existing law, the Administrative Procedure Act (APA), governs the procedures for the adoption, amendment, or repeal of regulations by state agencies and for the review of those regulatory actions by the Office of Administrative Law.*

*Existing law exempts from the rulemaking provisions of the APA regulations adopted by the director governing, among other things, the manner of collection of surcharges levied by the director upon specified employers for purposes of deposit in specified funds, including the Workers' Compensation Administration Revolving Fund.*

*This bill would also exempt from the rulemaking provisions of the APA regulations adopted pursuant to those promulgated by the director governing the manner of collection of the above-described assessments.*

*(5) Existing law authorizes the Occupational Safety and Health Standards Board to adopt, amend, or repeal occupational safety and health standards and orders. Existing law requires the Division of Occupational Safety and Health to propose to the board for its review and adoption, a standard that protects the health and safety of employees*

who engage in lead-related construction work and meets all requirements imposed by the federal Occupational Safety and Health Administration. Existing law requires the division to submit to the board a rulemaking proposal to revise the lead standards of the general industry safety orders and the construction safety orders, as specified, consistent with scientific research and findings. A violation of these standards and regulations under specific circumstances is a crime.

This bill would subject the work performed under any construction contract, including subcontracts, on the Golden Gate Bridge for the Suspension Bridge Seismic Retrofit Project that is awarded on or after January 1, 2025, and on or before December 31, 2025, to the division's lead standard regulations that were in effect on December 31, 2024. Because a violation of these provisions constitutes a crime, this bill would impose a state-mandated local program.

(6) This bill would make legislative findings and declarations as to the necessity of a special statute for Golden Gate Bridge, Highway and Transportation District.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(8) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

~~This bill would express the intent of the Legislature to enact statutory changes relating to the Budget Act of 2025.~~

Vote: majority. Appropriation: ~~no~~-yes. Fiscal committee: ~~no~~ yes. State-mandated local program: ~~no~~-yes.

14 (1) The aggregate amount of the assessment shall be determined

16 The commission shall be composed of seven members consisting  
17 of two representatives of organized labor, two representatives of  
18 self-insured employers, one representative of insured employers,

23 labor, self-insured employers, insured employers, and insurers.  
24 The term of office of members of the commission shall be four  
25 years, and a member shall hold office until the appointment of a  
26 successor. The President of the State Compensation Insurance  
27 Fund shall be an ex officio, voting member of the commission.  
28 Members of the commission shall receive one hundred dollars  
29 (\$100) for each day of actual attendance at commission meetings  
30 and other official commission business, and shall also receive their  
31 actual and necessary traveling expenses incurred in the performance  
32 of commission duties. Payment of per diem and travel expenses  
33 shall be made from the Workers' Compensation Fraud Account  
34 in the Insurance Fund, established in paragraph (4), upon  
35 appropriation by the Legislature.

36 (2) In determining the aggregate amount of the assessment, the  
37 Fraud Assessment Commission shall consider the advice and  
38 recommendations of the Fraud Division and the commissioner.

39 (3) The aggregate amount of the assessment shall be collected  
40 by the Director of Industrial Relations pursuant to Section ~~62.6~~

1 62.5 of the Labor Code. The Fraud Assessment Commission shall  
2 annually advise the Director of Industrial Relations, not later than  
3 March 15, of the aggregate amount to be assessed for the next  
4 fiscal year.

5 (4) The amount collected, together with the fines collected for  
6 violations of the unlawful acts specified in Sections 1871.4, 11760,  
7 and 11880, Section 3700.5 of the Labor Code, and Section 549 of  
8 the Penal Code, shall be deposited in the Workers' Compensation  
9 Fraud Account in the Insurance Fund, which is hereby created,  
10 and may be used, upon appropriation by the Legislature, only for  
11 enhanced investigation and prosecution of workers' compensation  
12 fraud and of willful failure to secure payment of workers'  
13 compensation as provided in this section.

14 (c) For each fiscal year, the total amount of revenues derived  
15 from the assessment pursuant to subdivision (b) shall, together  
16 with amounts collected pursuant to fines imposed for unlawful  
17 acts described in Sections 1871.4, 11760, and 11880, Section  
18 3700.5 of the Labor Code, and Section 549 of the Penal Code, not  
19 be less than three million dollars (\$3,000,000). Any funds  
20 appropriated by the Legislature pursuant to subdivision (b) that  
21 are not expended in the fiscal year for which they have been  
22 appropriated, and that have not been allocated under subdivision  
23 (f), may be applied to satisfy for the immediately following fiscal  
24 year the minimum total amount required by this subdivision or,  
25 subject to appropriation by the Legislature, may be used to augment  
26 funding in the immediately following fiscal year. The money shall  
27 not be transferred to the General Fund.

28 (d) After incidental expenses, at least 40 percent of the funds  
29 to be used for the purposes of this section shall be provided to the  
30 Fraud Division of the Department of Insurance for enhanced  
31 investigative efforts, and at least 40 percent of the funds shall be  
32 distributed to district attorneys, pursuant to a determination by the  
33 commissioner with the advice and consent of the division and the  
34 Fraud Assessment Commission, as to the most effective distribution  
35 of moneys for purposes of the investigation and prosecution of  
36 workers' compensation fraud cases and cases relating to the willful  
37 failure to secure the payment of workers' compensation. Each  
38 district attorney seeking a portion of the funds shall submit to the  
39 commissioner an application setting forth in detail the proposed  
40 use of any funds provided. A district attorney receiving funds

1 pursuant to this subdivision shall submit an annual report to the  
2 commissioner with respect to the success of his or her efforts.  
3 Upon receipt, the commissioner shall provide copies to the Fraud  
4 Division and the Fraud Assessment Commission of any application,  
5 annual report, or other documents with respect to the allocation of  
6 money pursuant to this subdivision. Both the application for  
7 moneys and the distribution of moneys shall be public documents.  
8 Information submitted to the commissioner pursuant to this section  
9 concerning criminal investigations, whether active or inactive,  
10 shall be confidential.

11 (e) If a district attorney is determined by the commissioner to  
12 be unable or unwilling to investigate and prosecute workers'  
13 compensation fraud claims or claims relating to the willful failure  
14 to secure the payment of workers' compensation, the commissioner  
15 shall discontinue distribution of funds allocated for that county  
16 and may redistribute those funds according to this subdivision.

17 (1) The commissioner shall promptly determine whether any  
18 other county could assert jurisdiction to prosecute the fraud claims  
19 or claims relating to the willful failure to secure the payment of  
20 workers' compensation that would have been brought in the  
21 nonparticipating county, and, if so, the commissioner may award  
22 funds to conduct the prosecutions redirected pursuant to this  
23 subdivision. These funds may be in addition to any other fraud  
24 prosecution funds or claims relating to the willful failure to secure  
25 the payment of workers' compensation prosecution otherwise  
26 awarded under this section. Any district attorney receiving funds  
27 pursuant to this subdivision shall first agree that the funds shall be  
28 used solely for investigating and prosecuting those cases of  
29 workers' compensation fraud or claims relating to the willful failure  
30 to secure the payment of workers' compensation that are redirected  
31 pursuant to this subdivision and submit an annual report to the  
32 commissioner with respect to the success of the district attorney's  
33 efforts. The commissioner shall keep the Fraud Assessment  
34 Commission fully informed of all reallocations of funds under this  
35 paragraph.

36 (2) If the commissioner determines that no district attorney is  
37 willing or able to investigate and prosecute the workers'  
38 compensation fraud claims or claims relating to the willful failure  
39 to secure the payment of workers' compensation arising in the  
40 nonparticipating county, the commissioner, with the advice and

1 consent of the Fraud Assessment Commission, may award to the  
2 Attorney General some or all of the funds previously awarded to  
3 the nonparticipating county. Before the commissioner may award  
4 any funds, the Attorney General shall submit to the commissioner  
5 an application setting forth in detail his or her proposed use of any  
6 funds provided and agreeing that any funds awarded shall be used  
7 solely for investigating and prosecuting those cases of workers'  
8 compensation fraud or claims relating to the willful failure to secure  
9 the payment of workers' compensation that are redirected pursuant  
10 to this subdivision. The Attorney General shall submit an annual  
11 report to the commissioner with respect to the success of the fraud  
12 prosecution efforts of his or her office.

13 (3) Neither the Attorney General nor any district attorney shall  
14 be required to relinquish control of any investigation or prosecution  
15 undertaken pursuant to this subdivision unless the commissioner  
16 determines that satisfactory progress is no longer being made on  
17 the case or the case has been abandoned.

18 (4) A county that has become a nonparticipating county due to  
19 the inability or unwillingness of its district attorney to investigate  
20 and prosecute workers' compensation fraud or the willful failure  
21 to secure the payment of workers' compensation shall not become  
22 eligible to receive funding under this section until it has submitted  
23 a new application that meets the requirements of subdivision (d)  
24 and the applicable regulations.

25 (f) If in any fiscal year the Fraud Division does not use all of  
26 the funds made available to it under subdivision (d), any remaining  
27 funds may be distributed to district attorneys pursuant to a  
28 determination by the commissioner in accordance with the same  
29 procedures set forth in subdivision (d).

30 (g) The commissioner shall adopt rules and regulations to  
31 implement this section in accordance with the rulemaking  
32 provisions of the Administrative Procedure Act (Chapter 3.5  
33 (commencing with Section 11340) of Part 1 of Division 3 of Title  
34 2 of the Government Code). Included in the rules and regulations  
35 shall be the criteria for redistributing funds to district attorneys  
36 and the Attorney General. The adoption of the rules and regulations

Accordingly, any funds resulting from assessments, fees, penalties, fines, restitution, or recovery of costs of investigation and prosecution deposited in the Insurance Fund shall not be deemed "unexpended" funds for any purpose and, if remaining in that account at the end of any fiscal year, shall be applied as provided in subdivision (f) and to offset or augment subsequent years' program funding.
