2. The pregnancy is the result of:

   a. rape or sexual assault that has been reported to law enforcement, or

   b. incest of a minor that has been reported to law enforcement.

B. An unborn child shall be presumed to be viable if more than twenty-four (24) weeks have elapsed since the probable beginning of the last menstrual period of the pregnant woman, based upon either information provided by her or by an examination by her attending
If it is the judgment of the attending physician that a particular unborn child is not viable where the presumption of viability exists as to that particular unborn child, then he or she shall certify in writing the precise medical criteria upon which he has determined that the particular unborn child is not viable before an abortion may be performed or induced.

C. No abortion of a viable unborn child shall be performed or induced except after written certification by the attending physician that in his best medical judgment the abortion is necessary to prevent the death of the pregnant woman or to prevent an impairment to her health. The physician shall further certify in writing the medical indications for such abortion and the probable health consequences if the abortion is not performed or induced.

D. The physician who shall perform or induce an abortion upon a pregnant woman after such time as her unborn child has become viable shall utilize the available method or technique of abortion most likely to preserve the life and health of the unborn child, unless he or she shall first certify in writing that in his or her best medical judgment such method or technique shall present a significantly greater danger to the life or health of the pregnant woman than another available method or technique.

E. An abortion of a viable unborn child performed solely under the exception provided by paragraph 2 of subsection A of this section shall be performed or induced only when there is in
attendance a physician other than the physician performing or
inducing the abortion who shall take control of and provide
immediate medical care for the child.

E. During the performance or inducing of the abortion, the
physician performing it, and subsequent to it, the physician
required by this section to be in attendance, if applicable under
subsections D and F of this section, shall take all reasonable steps
in keeping with good medical practice, consistent with the procedure
used, to preserve the life and health of the child, in the same
manner as if the child had been born naturally or spontaneously.

F. The requirement of the attendance of a second physician may
be waived when in the best judgment of the attending physician a
shall not apply to an abortion performed due to a medical emergency
exists and further delay would result in a serious threat to the
life or physical health of the pregnant woman under the exception
provided by paragraph 1 of subsection A of this section. Provided
that, under such emergency circumstances and waiver, the attending
physician shall have the duty to take all reasonable steps to
preserve the life and health of the child before, during and after
the abortion procedure, unless such steps shall, in the best medical
judgment of the physician, present a significantly greater danger to
the life or health of the pregnant woman.

G. Any person violating subsection A of this section shall
be guilty of homicide.
H. Any abortion performed or induced under an exception provided by subsection A of this section, performed or induced to remove an ectopic pregnancy, or performed or induced before the unborn child has become viable shall be reported by the abortion provider to the State Department of Health in accordance with Section 18 of this act.

I. As used in this section:

1. “Abortion” means the act of using, prescribing, administering, procuring, or selling of any instrument, medicine, drug, or any other substance, device, or means with the purpose to terminate the pregnancy of a woman, with knowledge that the termination by any of those means will with reasonable likelihood cause the death of an unborn child. It does not include the use, prescription, administration, procuring, or selling of any type of contraception if the contraception is administered before the time when a pregnancy could be determined through conventional medical testing. It does not include any act related to in vitro fertilization or otherwise related to the diagnosis or treatment of infertility or the preservation of fertility by a licensed healthcare provider acting lawfully and within the scope of his or her practice. An act is not an abortion if the act is performed with the purpose to:

   a. save the life or preserve the health of the unborn child,
b. remove a dead unborn child whose death was caused by miscarriage or spontaneous abortion, or
c. remove an ectopic pregnancy;

2. “Medical emergency” means a condition that, in reasonable medical judgment:

   a. cannot be remedied by delivery of the child, and
   b. so complicates the medical condition of the pregnant woman as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible physical impairment of a major bodily function, not including psychological or emotional conditions. A condition is not a medical emergency if it is based on a claim, diagnosis, or determination that the woman may engage in conduct which she intends to result in her death or in the substantial and irreversible physical impairment of a major bodily function; and

3. “Reasonable medical judgment” means a medical judgment that would be made by a reasonably prudent physician who is knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved.

SECTION 7. AMENDATORY 63 O.S. 2021, Section 1-745.2, is amended to read as follows:
Section 1-745.2. As used in the Pain-Capable Unborn Child Protection Act only:

1. “Abortion” means the use or prescription act of using, prescribing, administering, procuring, or selling of any instrument, medicine, drug, or any other substance or device, or means with the purpose to terminate the pregnancy of a woman known to be pregnant with an intention other than to increase the probability of a live birth, to preserve, with knowledge that the termination by any of those means will with reasonable likelihood cause the death of an unborn child. It does not include the use, prescription, administration, procuring, or selling of any type of contraception if the contraception is administered before the time when a pregnancy could be determined through conventional medical testing. It does not include any act related to in vitro fertilization or otherwise related to the diagnosis or treatment of infertility or the preservation of fertility by a licensed healthcare provider acting lawfully and within the scope of his or her practice. An act is not an abortion if the act is performed with the purpose to:

a. save the life or preserve the health of the unborn child after live birth, or to,

b. remove a dead unborn child who died as the result of natural causes in utero, accidental trauma, or a criminal assault on the pregnant woman or her unborn child, and which causes the premature termination of
1. the pregnancy whose death was caused by miscarriage or
   spontaneous abortion, or
   c. remove an ectopic pregnancy;

2. “Attempt to perform or induce an abortion” means an act, or
   an omission of a statutorily required act, that, under the
   circumstances as the actor believes them to be, constitutes a
   substantial step in a course of conduct planned to culminate in the
   performance or induction of an abortion in this state in violation
   of the Pain-Capable Unborn Child Protection Act;

3. “Postfertilization age” means the age of the unborn child as
   calculated from the fertilization of the human ovum;

4. “Fertilization” means the fusion of a human spermatozoon
   with a human ovum;

5. “Medical emergency” means a condition that, in reasonable
   medical judgment:
   a. cannot be remedied by delivery of the child, and
   b. so complicates the medical condition of the pregnant
      woman that it necessitates as to necessitate the
      immediate abortion of her pregnancy without first
      determining postfertilization age to avert her death
      or for which the delay necessary to determine
      postfertilization age a delay will create serious risk
      of substantial and irreversible physical impairment of
      a major bodily function, not including psychological
or emotional conditions. No condition shall be deemed
A condition is not a medical emergency if it is based
on a claim, diagnosis, or determination that the
woman will engage in conduct which she intends to
result in her death or in substantial and irreversible
physical impairment of a major bodily function;

6. “Reasonable medical judgment” means a medical judgment that
would be made by a reasonably prudent physician who is
knowledgeable about the case and the treatment possibilities with
respect to the medical conditions involved;

7. “Physician” means any person licensed to practice medicine
and surgery or osteopathic medicine and surgery in this state;

8. “Probable postfertilization age of the unborn child” means
what, in reasonable medical judgment, will with reasonable
probability be the postfertilization age of the unborn child at the
time the abortion is planned to be performed or induced;

9. “Unborn child” or “fetus” each means an individual organism
of the species homo sapiens from fertilization until live birth; and

10. “Woman” means a female human being whether or not she has
reached the age of majority.

SECTION 8. AMENDATORY 63 O.S. 2021, Section 1-745.4, is
amended to read as follows:

Section 1-745.4. A. Except in the case of a medical emergency
as provided by subsection C of this section, no abortion shall be
performed or induced or be attempted to be performed or induced
unless the physician performing or inducing it has first made a
determination of the probable postfertilization age of the unborn
child or relied upon such a determination made by another physician.
In making such a determination, the physician shall make such
inquiries of the woman and perform or cause to be performed such
medical examinations and tests as a reasonably prudent physician,
knowledgeable about the case and the medical conditions involved,
would consider necessary to perform in making an accurate diagnosis
with respect to postfertilization age.

B. Knowing or reckless failure by any physician to conform to
any requirement of this section constitutes “unprofessional
conduct”.

C. Subsection A of this section shall not apply:
   1. If the abortion is necessary due to a medical emergency as
defined in subsection D of this section; or
   2. If the pregnancy is the result of:
      a. rape or sexual assault that has been reported to law
         enforcement, or
      b. incest of a minor that has been reported to law
         enforcement.

D. Any abortion performed or induced under an exception
provided by subsection C of this section, performed or induced to
remove an ectopic pregnancy, or performed or induced in compliance
with subsection A of this section shall be reported by the abortion
provider to the State Department of Health in accordance with
Section 18 of this act.

SECTION 9. AMENDATORY 63 O.S. 2021, Section 1-745.5, is
amended to read as follows:

Section 1-745.5. A. No Except as provided by subsection C of
Section 1-745.4 of this title, no person shall perform or induce or
attempt to perform or induce an abortion upon a woman when it has
been determined, by the physician performing or inducing or
attempting to perform or induce the abortion or by another physician
upon whose determination that physician relies, that the probable
postfertilization age of the woman’s unborn child is twenty (20) or
more weeks, unless, in reasonable medical judgment, she has a
condition which so complicates her medical condition as to
necessitate the abortion of her pregnancy to avert her death or to
avert serious risk of substantial and irreversible physical
impairment of a major bodily function, not including psychological
or emotional conditions. No such condition shall be deemed to exist
if it is based on a claim or diagnosis that the woman will engage in
conduct which she intends to result in her death or in substantial
and irreversible physical impairment of a major bodily function.

B. When an abortion upon a woman whose unborn child has been
determined to have a probable postfertilization age of twenty (20)
or more weeks is not prohibited by this section, the physician shall
terminate the pregnancy in the manner which, in reasonable medical
judgment, provides the best opportunity for the unborn child to
survive, unless, in reasonable medical judgment, termination of the
pregnancy in that manner would pose a greater risk either of the
death of the pregnant woman or of the substantial and irreversible
physical impairment of a major bodily function, not including
psychological or emotional conditions, of the woman than would other
available methods. No such greater risk shall be deemed to exist if
it is based on a claim or diagnosis that the woman will engage in
conduct which she intends to result in her death or in substantial
and irreversible physical impairment of a major bodily function.

SECTION 10. AMENDATORY Section 2, Chapter 190, O.S.L.

unborn child has a detectable fetal heartbeat.

C. In making a determination under subsection B of this
section, the physician must use a test that is:

1. Consistent with the physician’s good faith and reasonable
understanding of standard medical practice; and

2. Appropriate for the estimated gestational age of the unborn
child and the condition of the pregnant woman and her pregnancy.

D. A physician making a determination under subsection B of
this section shall record in the pregnant woman’s medical record:

1. The estimated gestational age of the unborn child;

2. The method used to estimate the gestational age; and

3. The test used for detecting a fetal heartbeat including the
date, time, and results of the test.

required by Section 3 of this act Section 1-745.33 of this title or
failed to perform a test to detect a fetal heartbeat.
B. A physician shall not be in violation of this section if the
physician performed a test for a fetal heartbeat as required by
