Quantity:

Item Number:

CSM 94000

ECH 94090

94013
Eutectic Ice Pack

94057
HOLDCOLD™ Jars

Except CSM and DICSM

Bid Description

Insulated Cream Servers and Espresso Cream Holders are constructed of a stainless steel exterior and one-piece seamless plastic interior. Their compact design takes up only 8" (20.3 cm) of counter space.

The Cream Server, Drop-In Cream Server, and Espresso Cream Holder are available in (2) varieties; with a stainless steel jar and (2) round Eutectic Ice Packs or with (1) black and (1) white Hold Cold jar. HOLDCOLD™ jars will maintain serving temperature up to (12) hours, when used properly.

The Cream Server is available for countertop or drop-in use. Both feature a stainless steel pump with a cast valve body and welded construction. Maximum stroke yields 1 ounce (30 mL). Supplied gauging collars reduce the yield in 1/8 ounce (3.7 mL) increments.

The ECH accepts a hose directly from an espresso machine into a hole in the lid.

Standard Features

Stainless steel exterior and seamless plastic interior

Includes a Stainless Steel Jar and (2) Eutectic Ice packs or (1) black and (1) white HOLDCOLD™ jar for extended cooling time

1 oz (30 mL) maximum portion, now adjustable in 1/8 ounce (3.7 mL) increments — allows for Portion Optimization™

Cream Holder conveniently works with your espresso machine

Cream Equipment Accessories

- ☐ 3 quart (2.8 L) Stainless Steel Jar 94009
- ☐ Eutectic Ice Pack, Round 94013
- ☐ Kit, Round HOLDCOLD™ Jars, (1) white & (1) black 94057

Warranty
