# Change Log

Date	Change Description
2013-06-24	Initial release.
2013-12-31	Added FS-1024D to supported models.

# Introduction

This document provides support information, upgrade information, integration, and resolved and known issues in FortiSwitch v2.0 Patch Release 2 build 0010 for the FortiSwitch. Please review all sections in this document prior to upgrading your FortiSwitch device.

This document includes the following sections:

- [Special Notices](#)
- [Upgrade Information](#)
- [Product Integration and Support](#)
- [Resolved Issues](#)
- [Known Issues](#)
- [Firmware Image Checksums](#)

## Supported models

The following models are supported on FortiSwitch v2.0 Patch Release 2:

FS-28C, FS-324B-POE, FS-348B, and FS-448B.

FS-1024D

This model is released on a special branch (build 6010) based off of the regular FortiOS v2.0 Patch Release 2 release.

---

See <http://docs.fortinet.com/fswitch.html> for additional documents on FortiSwitch.

# Special Notices

## **TFTP boot process**

The TFTP boot process erases all current switch configuration and replaces it with the factory default settings.

# Upgrade Information

## Upgrading from FortiSwitch v2.0.0 or later

FortiSwitch v2.0 Patch Release 2 build 0010 officially supports upgrade from FortiSwitch v2.0.0 or later.

---

If your FortiSwitch is configured in FortiLink mode, you should upgrade your FortiSwitch first, and then upgrade your FortiGate to FortiOS v5.0 Patch Release 3. See the [FortiOS v5.0 Patch Release 3 Release Notes](#) for information on upgrading your FortiGate device.

---

## Downgrading to previous firmware versions

Downgrading from FortiSwitch v2.0 Patch Release 2 build 0010 to previous firmware versions is not supported.

# Product Integration and Support

## Web browser support

The following web browsers are supported by FortiSwitch v2.0 Patch Release 2 build 0010 for the FortiSwitch:

- Microsoft Internet Explorer version 9
- Mozilla Firefox version 18

Other web browsers may function correctly, but are not supported by Fortinet.

## FortiOS support

FortiSwitch v2.0 Patch Release 2 build 0010 for the FortiSwitch is supported by FortiOS v5.0 Patch Release 3 or later.

## FortiExplorer support

FortiSwitch v2.0 Patch Release 2 build 0010 for the FortiSwitch is supported by FortiExplorer v2.3 build 1052 or later. See the [FortiExplorer v2.3 Build 1052 Release Notes](#) for more information.

# Resolved Issues

The resolved issues table listed below does not list every bug that has been corrected with FortiSwitch v2.0 Patch Release 2 build 0010 for the FortiSwitch. For inquires about a particular bug, please contact [Customer Service & Support](#).

**Table 1:** Resolved issues

Bug ID	Description
202458	The Web-based Manager on the FS-324B-POE, FS-348B, and FS-448B may fail to display properly using Microsoft Internet Explorer 10.

# Known Issues

The known issues table listed below does not list every bug that has been identified with FortiSwitch v2.0 Patch Release 2 build 0010 for the FortiSwitch. For inquiries about a particular bug, please contact [Customer Service & Support](#).

**Table 2:** Known issues

Bug ID	Description
207036	Static and DHCP discover modes fail to setup a connection. Use broadcast mode only, which is the default setting.

# Firmware Image Checksums

The MD5 checksums for all Fortinet software and firmware releases are available at the Customer Service & Support portal located at <https://support.fortinet.com>. After logging in, select *Download > Firmware Image Checksums*, enter the image file name including the extension, and select *Get Checksum Code*.

**Figure 1:** Firmware image checksum tool

The screenshot displays the Fortinet Customer Service & Support portal. At the top, the Fortinet logo and 'CUSTOMER SERVICE & SUPPORT' are visible. A navigation bar includes links for Home, Asset Management, Assistance Center, Download, FAMS, Support Programs, Tools & Resources, FortiGuard Center, and Feedback. The main content area is titled 'FIRMWARE IMAGE CHECKSUMS' and features a form with a 'File Name' input field containing 'FGT\_1000A-v400-build0185-FORTINET.out'. Below the input field is a 'Get Checksum Code' button. The resulting 'Checksum Code' is 'od7869fb09066d0e4d00b10b8a38ed7d'. A right-hand sidebar contains 'CONTACT SUPPORT' information, including phone numbers for Fortinet Support Center and Talkswitch & FortiVoice. The footer includes a site index and copyright notice for 2013 Fortinet.
