- Dries fast, water resistant when dry and will not fade.
- **Once dry, safe for humans, pets and the environment.**
- Available in variety shades of **GREEN** for a close match to types of grass varieties.
- Use on home lawns, grass yards to cover up pet pee brown spots, dead turf spots.
- Cover-up brown / dead grass spots on golf course fairways, putting greens.

# TURFWORKS Trackerdye

## TEMPORARY, WATER WASHABLE, SPRAY PATTERN INDICATOR, GREEN TRACKER DYE

Super-concentrate green turf dye that can be diluted with water for use on golf courses on areas where a green appearance on grass is needed. Unlike **TURFWORKS PaintDye**, which is water resistant, TrackerDye has a niche characteristic where it can be washed off with water.

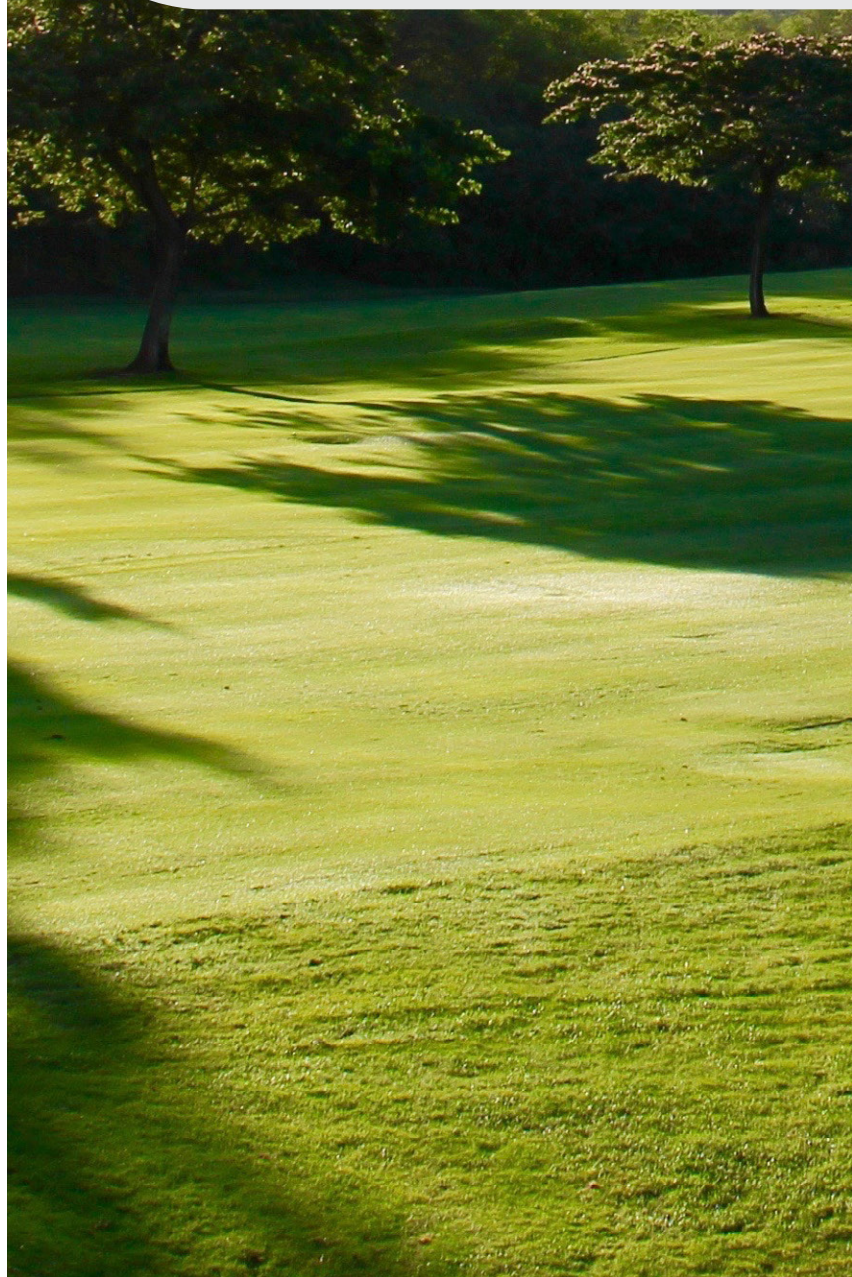

Can be added to fertilizers, pesticides and herbicides to efficiently control and manage spray patterns.

Concentrate priced by the gallon.  
Packaged 1 gallon or 5-gallon containers.

**Formulated with high levels of top-quality green pigment in this product it can be diluted with over 50 parts of water and sprayed on damaged turf to impart a green lush look.**

The green does dissolve with water, it is not permanent. If a permanent green color is needed, then we recommend **TURFWORKS**.

Even in low additions of 1 ounce per gallon to herbicides and fertilizers, **TrackerDye** mixes easily. When sprayed, it visibly shows the spray patterns better to control the application more efficiently by preventing messy overlaps or missed areas.
