By Stephen Gilbert & Greg Kononenko

Snap Video Profits

Intro:

Hi,

I would like to thank you for picking up Snap Video Profits. Our goal here is to show you step-by-step how we generate thousands of free, targeted hops by ranking short videos on the first page of Google and youtube in under 24 hours.

After reading this, my goal is for you to be ready and prepared to take this exact system and implement it.

The beauty of this system is that it is simple, easy to replicate, has very low maintenance, and does not take much of your valuable time. You see, I constantly strive to find systems that are easy to follow and produce great results. Just take a look at some of the results I've been able to produce with this system on the next page.

But before you do let me formally welcome you to our team. The Soulweb team.

I run the blog <http://soulweb.org> – and the goal of that blog is to combine internet marketing with integrity. On that page, you will find free training, honest reviews, and a ton of thoughts and updates about the current going-ons of the internet marketing industry.

As a part of that club, you are entitled to a no-holds barred in-depth look into the online marketing underworld. It's a 100% BS free zone.

Let me say one thing up front: it is my goal to help you succeed in the best way possible.

I'll help you find tools and information which follow the NO BS mindset and save you time, expand your knowledge, strengthen your business, increase traffic, increase conversions, and ultimately make you more money.

A big philosophy of mine is building a long term business and most importantly one that you can outsource and step back from.

Snap Video Profits follows that philosophy.

So getting to know me...

- I am 25 years old. I have been at the helm of a successful online business for the last 5 years.

- I like video games, studying, science, trying new marketing methods, perfecting my business, and overall just enjoying life.

- I have 3 dogs, 2 cats, a bird, a wife, and a brand new 3 month old named Hadley. She's the light of my word!

Through Snap Video Profits and Soulweb, my goal is to remove the curtain of lies that dominates the internet marketing industry. This is why every product I put out is a pure 100% no fluff case study, documented in a scientific fashion. All you have to do is copy my steps exactly.

I hope this connection will be mutually beneficial as you are possibly the type of person who would find my products and personality useful.

It's nice meeting you,
Stephen (P.S. You can call me steve!)

Part 1: It works...

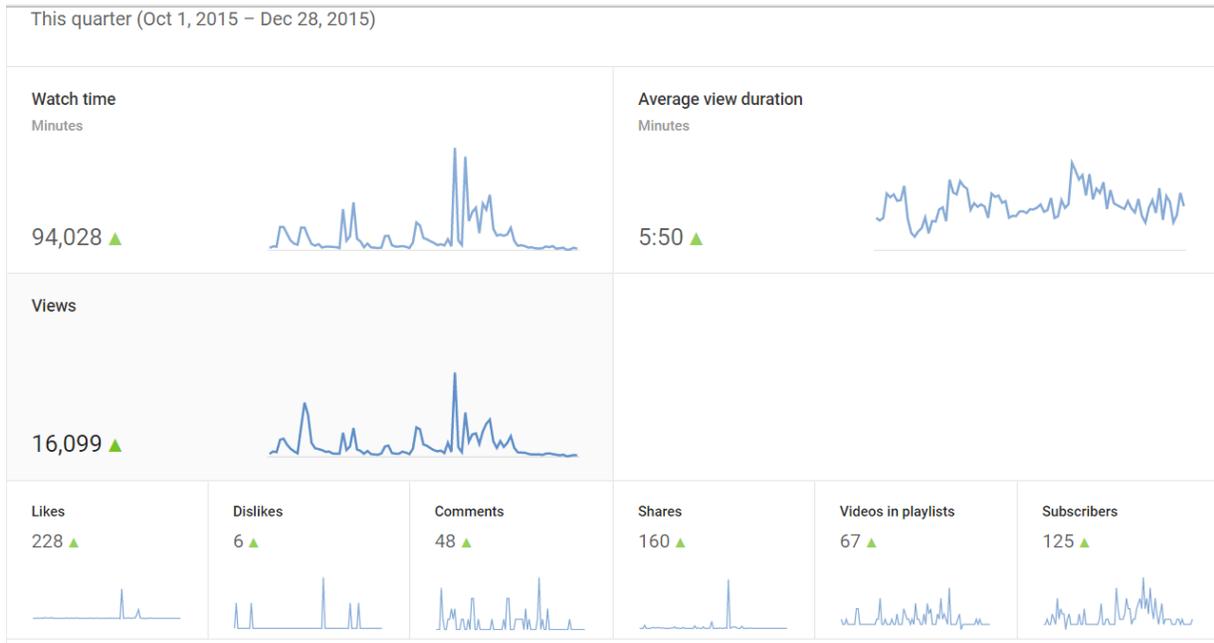

Well, I say we skip all the small talk and get started.
The fact is, this method works. It ranks videos every
single time without fail. Have you ever had trouble
ranking on the first page

You're not alone.

Now you can get videos on the first page of Google and YouTube every single time and get paid for it.

The goal here is to look at upcoming product launches, on any network, then make a review video or have one made. (if you don't know how, keep reading I teach you!) and rank it EVERY SINGLE TIME.

By doing this, once the product goes live you are 100% set to reap in passive traffic and commissions. Look at how much my YouTube Channel has grown from doing this the past few months:

So before we begin, if you're not already registered with Clickbank.com, Jvzoo.com, Warriorplus.com, and Clicksure.com, then go ahead and sign up. These are the affiliate networks where we will find offers to make videos for. Here's some proof of our results.

1. Stephen Gilbert and Greg Kononenko - Can you hold the spot?
2. Mike McKav and KME Bvrne - Over took the

In the pursuit of honesty and transparency, let me be clear. Not ALL of those sales came from YouTube. Some came from my blog (which also ranked on page 1 because of this method.) And some came from my email list.

However, over 22 FE sales came from YouTube directly. And more from Google.

The benefit of doing things this way is twofold.

- 1)** You make money on the sale.
- 2)** You build subscribers that continue to watch any other videos you put out. By building an audience, you also build a long term income.

Part 2: Overview

Here are the concise steps to making this work:

- 1) Visit muncheye.com or JVnotifypro.com . Pick one coming up within 5 – 7 days to give you time to work.
- 2) Create a video or have it made a fiverr. Name the video: “Product Name Review”
- 3) Edit Meta Data of Video
- 4) Upload video to YouTube
- 5) Optimize
- 6) Rank on YT
- 7) Secret Sauce for Google

Part 3: Let's get started..

Step 1: Before we do anything, the first step is to decide what we're going to promote.

In order to do that, we need to head to JVNotifypro.com or MunchEye.com.

Then, we need to pick a 'product' that's launching within 5 – 7 days.

In my opinion, Software / Make Money Online niches work best. But you can use this on any of the upcoming launches.

Watch this video before continuing to step 2:

https://youtu.be/ZBifGkkbF_0

Step 2: Next, you're going to need a video.

Making a video is very easy. [Here is a worksheet you can fill out.](#)

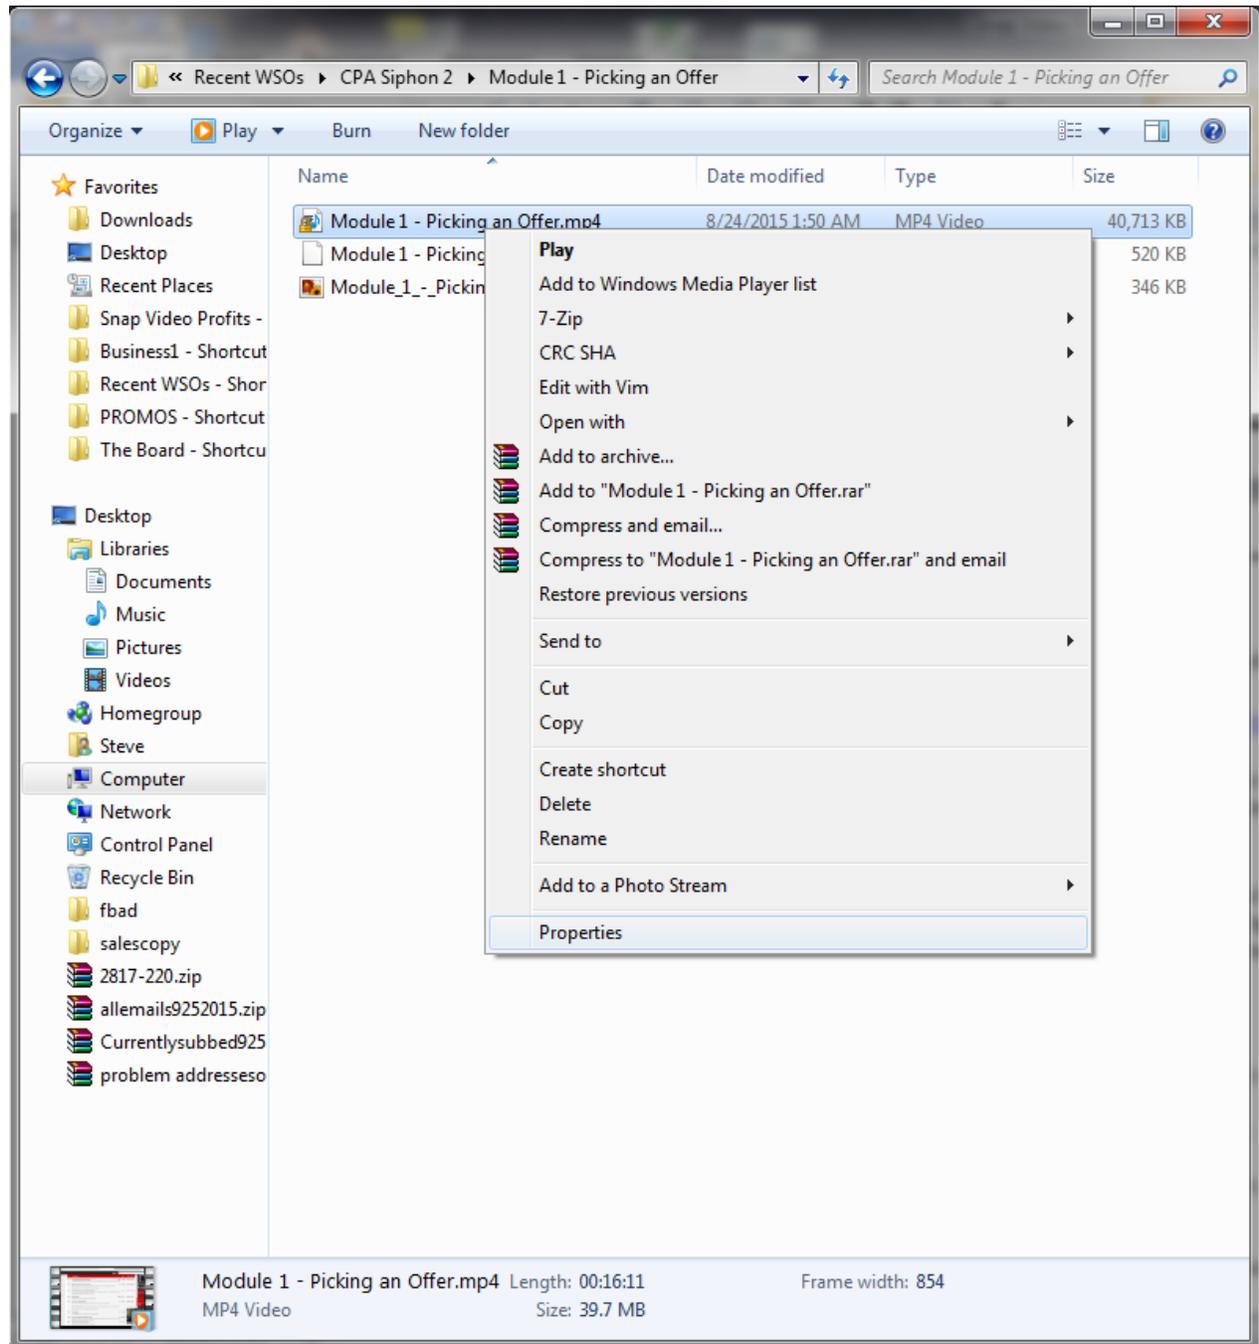

Simply find a product you'd like to review, fill out the answers on the worksheet, then either record yourself going through this worksheet or give this worksheet to someone on Fiverr to make a video for you. It's as easy as that. 😊

The reason this worksheet "works" so well is because it answers a ton of frequently asked questions that customers usually have. By making videos using this sheet, you quickly build a loyal following because they like your NO BS style. The sheet sells on information, rather than hype. And soft selling is much better than hyping up a product.

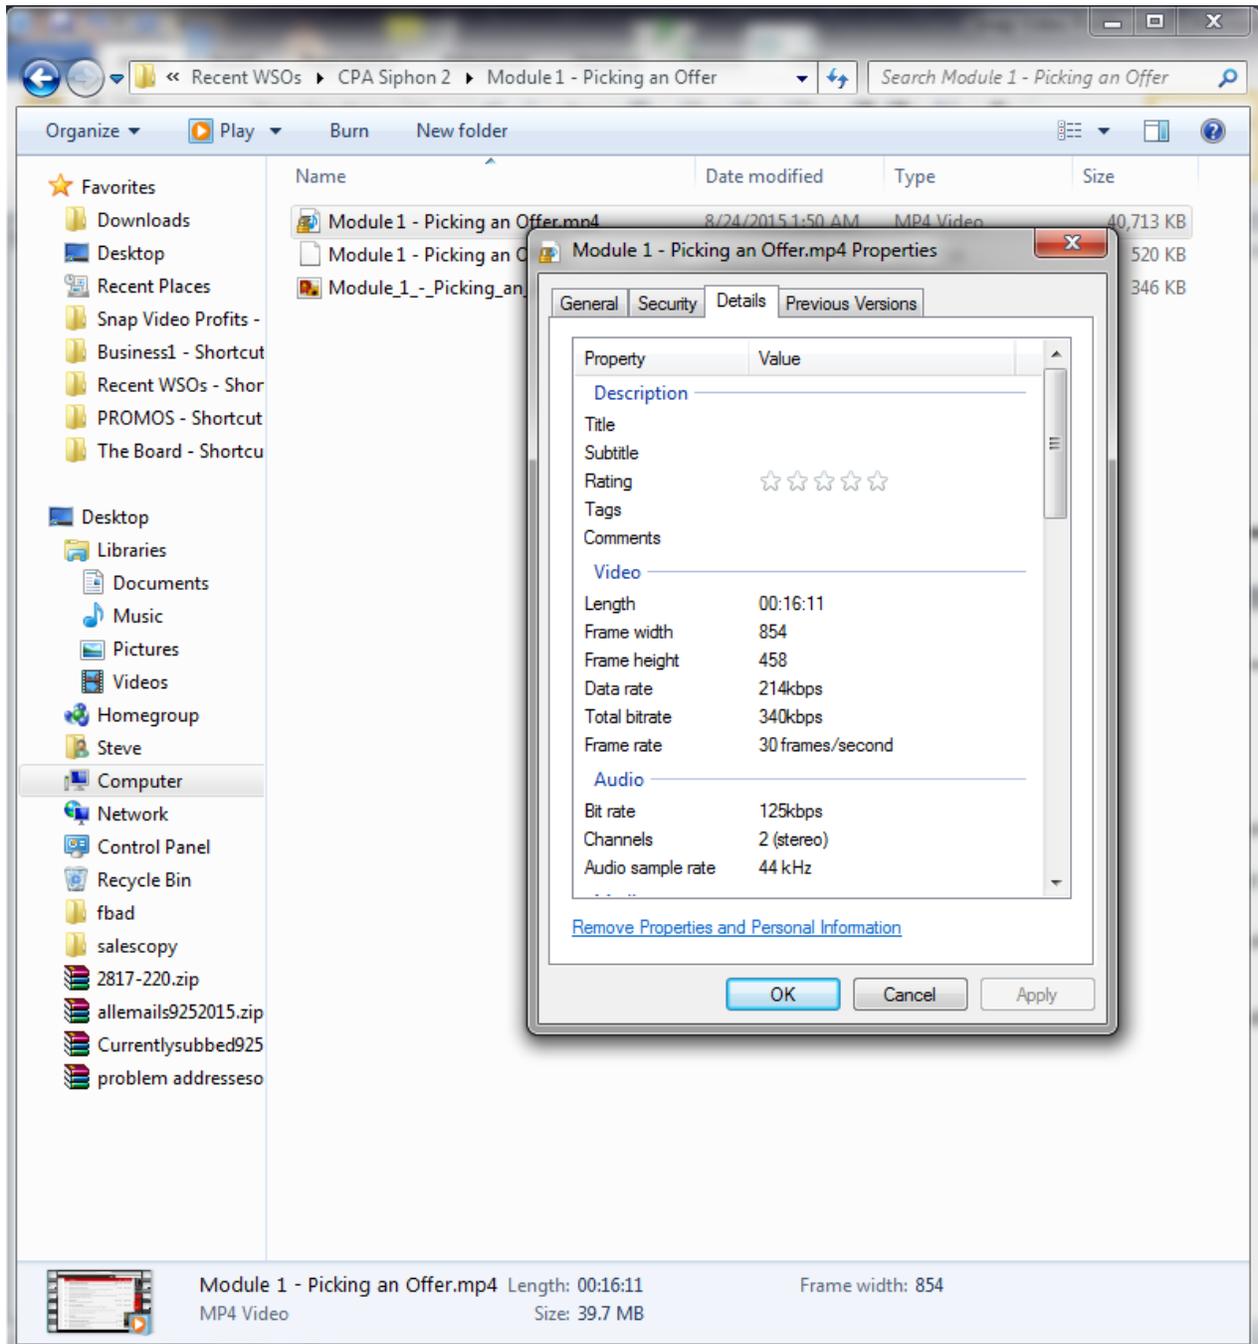

Step 3: After you have your video, we need to edit the meta data.

It sounds scary, but it's really not.

Find your video on your computer, right click, and click properties:

Then, on the window that pops up click on “details”

Then, proceed to fill out the information. Put “product name review” in the title section.

Your target keyword in the subtitle section.

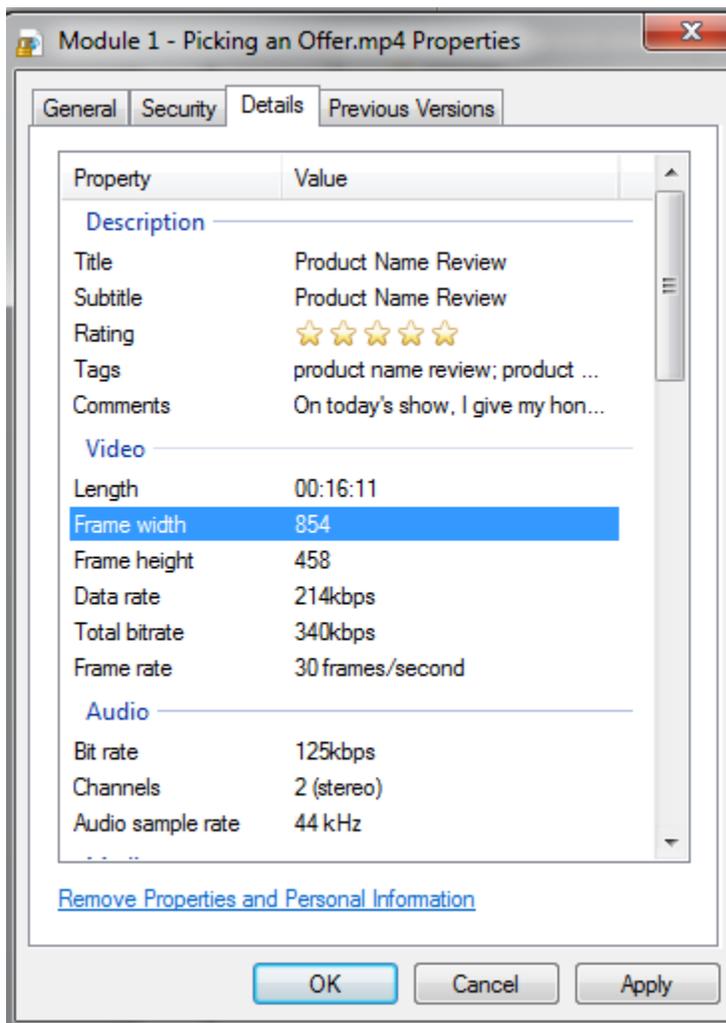

Rate it as 5 stars.

For tags, put: “Product name bonus” “Product Name Review” “Product Name Demo” “Product Name Scam”

These are buying keywords.

Then, in the comments section, write a blurb like you would in the youtube description section.

In the end, it should look like this:

Then, click apply and you're done!

We set it up like this because YouTube has recently started checking it for relevant info.

Step 4: The next step is to upload the video straight to YouTube and Optimize it.

You need your keyword in the title.

A short, concise, professional description that includes your affiliate link. A link to your blog if you have one. And a link to any social media accounts that you have.

The reason for the social media stuff is this is how YouTube separates spam channels from real channels. It's great to blend in and is another way to build your audience.

3-5 tags.

And an image named after your keyword, that you then upload to "custom thumbnail."

Watch this video here to see it all in order:
<https://youtu.be/AUTmlmeN2KM>

Step 5: Ranking your YouTube Video

This is actually one of the easiest steps in the guide. But there are two different routes you can take dependent upon whether or not you have a blog.

I recommend always having a blog. I use soulweb. You can use any blog or wordpress site you want. This just fits into YouTube / Google's algorithms and causes your webpage to rank as well as your video. So it is beneficial to have one, but not necessary.

Ranking method with blog:

- 1)** The first thing you want to do is download the free "Yoast SEO" Plugin. What this plugin does is allow you to do perfect on page optimization for your posts. When you do this, your blog will not only rank, but it will pass on the relevancy to the youtube video and vice versa. Which not only causes your video to rank on YouTube AND Google, but your web page as well.
- 2)** The next thing you want to do is create a short blog post titled: "Product Name Review"
- 3)** Then, you want to write it following Yoast SEO's instructions.
- 4)** Then, you want to include a link to the video in it. Here is the post I made for eCom Edge. Which led to first page rankings for my video and web page: <http://soulweb.org/ecom-edge-review/>
- 5)** After you have made the page, the next step you want to do is purchase [this fiverr gig](#) and send it DIRECTLY to your video. Not your post, but your video. The target keyword is "product name review"

For a more in-depth explanation of this process, watch this short clip:

https://youtu.be/vqgTttwkc_U

Ranking method with video only (no blog):

- 1) If you're on a budget, you can use SocialMarker.com to build some low quality social bookmarks. Then use YouLikeHits.com to send YouTube views.
- 2) However, I highly recommend you spend the \$5 on [this gig](#) [instead](#), as it works much better and faster and has guaranteed results. What this gig does is send high PR links to your video. And it works like a charm. Your target keyword is "Product Name Review"

Voila! You're done! That wasn't hard was it?
