INDIVIDUAL COLLEGIATE RECORDS

Individual collegiate records are determined by comparing the best records in all four divisions (Football Bowl Subdivision, Football Championship Subdivision, II and III) and reclassifying teams (Recl) in comparable categories. Before 2002, postseason games were not included in NCAA final football statistics or records. Beginning with the 2002 season, all postseason games were included in NCAA final football statistics and records. Lists also include career records of players who played in one or more divisions. No non-NCAA statistics are included.

^Active player. ‡Touchdowns-responsible-for are player's TDs scored and passed for.
