*Texas Tech has been listed by some as conference champion for the years 1932, 1933 and 1934, but conference rules forbade an official conference championship. This was due to the fact that the conference covered such a large area that games between all members were not practical.

**Texas Tech won its two conference games in 1938 but did not win the official championship since it did not meet the conference three-game requirement. Its victory over New Mexico did not count toward the championship, permitting New Mexico to share championship honors with New Mexico St.
