OLX is a great application and I use it from the age of 5 and overall I am satisfied with it. It's safe and secure without a hitch. Problems. S. In OLX, individuals can sell such things that are of no use to them. Or if the statute of limitations sells it on OLX. Because there are other competitors with OLX. But OLX should be your first priority for buying and selling. It's with the safe jobs. People who run their business and dont do well could sell at OLX for the best survival of their business. I'm happy with what I have thanks to OLX Hi Basit, you made our day! Thank you for the 5 star rating and love for the New OLX! Continue OLXing! The AI of this application is not friendly. First of all there is no feasibility As if you want to see another plugin you need to tap back scroll down, then click on the next plugin, then click back, then go through the same procedure. Secondly, there is a minor bug when I have to write something looking not to show characters. I tried every iPhone in my house, but the problem still exists! Thirdly, the chat option, should not be here. is a very irritating notification board shows that we have an answer when I try to open it through the app does not refresh, but I have to forcibly close the application and reopen to see the whole message! Fourth, the prominent thing should be in different categories, they are mainly traders if we want to buy from retailers why should we be here in the first place??? Suggestions: Don't complicate this. Make it easy for everyone!!!! Hi Sania, your concern is our top priority. Contact us with details of the problems you are facing. Help@olx.com.pk so that we can consider it immediately! Furthermore, your feedback has been recorded with us and we will certainly consider this. Sell It | Search it | Buy it Fom can carry me those scammers as I have been using this app Since the last two years, but there are some people who do scams with a lot of people sending msg that they want to give the phone to their relatives or any relative etc so OLX must have a serious step of identifying these people and taking them to court, because if a new user who does not know about these culprits will bear a loss that will ultimately effect OLX and in the mind of that seller will create an untested will of OLX that will spread by word of mouth so that the founder of OLX must take steps to punish these culprits Stay State of these culprits and do not send your phone or your thing or money in advance Meet a suitable place such as a market or bus stop and when you are staisfied take money or that particular thing @ website developers app support privacy rules looking to sell your car or upgrade your mobile?
