

Crowdfunding Report:

“Madres tutoras”

Quetzaltenango, Guatemala, C.A., May 2023

TITTLE OF REPORT

“Madres tutoras”

We have great news! this 2023 we will be giving scholarships to 4,007 girls and young women in rural areas, so that they have the opportunity to continue their studies and, over time, improve their quality of life and that of their families.

All this is possible thanks to the contribution made by this fundraising, the trust and affection that exists towards the ‘Scholarships for the Girls Child’ project. Together we are a great team!

In order to continue accompanying our scholarship students, we believe in the important role that mothers play in the academic formation of each one of them. In the scholarship project we aim to empower mothers and women who want to share their experience and knowledge with the scholarship girls and young women in their community.

The topics to be addressed are: self-care, hygiene, personal grooming and resilience. These topics are taught by the Madres Tutoras, to whom we owe so much. They are called Madres Tutoras, since the essence of their work is to share, advise and support the scholarship recipients to develop and improve their personal hygiene habits, self-care, self-confidence and decision making. In addition, they share with them their life experience, advice on how to get ahead and alternatives to empower themselves as women. Thanks to your financial support, we will continue to support education in Guatemala.
