

## Crowdfunding Report:

# **“Scholarship training”**

Quetzaltenango, Guatemala, C.A., June 2023

## TITTLE OF REPORT

# “Scholarship training”

The Scholarship Project focuses its efforts on supporting vulnerable girls in rural areas to have access to school. Through a monthly stipend and a methodology of accompaniment, the life skills of the scholarship recipients are strengthened and school permanence is achieved.

In this sense, we would like to report on the completion of the first semester’s training, with excellent participation and attitude on the part of the girls and young women. The topics worked on were: “Eating habits” (soft skills), “entrepreneurship” (reading) and “savings” (mathematics).

All the content is focused on strengthening fundamental aspects for school success. But in addition to the extracurricular training, there is also the quality of the people who are in charge of giving the essence and impact to the ‘Scholarship Project’.

Motivation, teamwork and willingness are aspects that make our beneficiaries the protagonists of their own future. For this reason, we would like to thank you personally for your collaboration in this project, because together we make possible this adventure of “changing lives” by making a difference, doing things with love and professionalism.
