

Crowdfunding Report:

## **Returning to school is a childhood illusion**

Quetzaltenango, Guatemala, C.A., February 2025

## Returning to school is a childhood illusion

However, one of the challenges families face at the beginning of the school year is purchasing school supplies, paying for uniforms, and acquiring essentials such as backpacks and shoes.

This year, the global goal of the Scholarship Project is to provide scholarships to 4,100 girls and young women. Among them, 50 young women will be completing their basic education, directly supported by Global Giving.

Since the launch of the campaign for this cause, many young women have successfully completed their basic studies. This is why your contribution remains essential to ensuring the continuity of the scholarship recipients in the school system.

A man in a black t-shirt is reading a book to a group of children standing in a line outside a building. The children are wearing various casual clothes like jeans, t-shirts, and sneakers. The building has a light-colored stone wall and a window with a metal grille. The Fundop logo is in the bottom right corner.
