

BUDGET & GRANTS MANAGEMENT

COMPOSITE INDEX OF LOCAL ABILITY TO PAY

The Composite Index determines a school division's ability to pay education costs fundamental to the commonwealth's Standards of Quality (SOQ). The Composite Index is calculated using three indicators of a locality's ability-to-pay:

- True value of real property (weighted 50 percent)
- Adjusted gross income (weighted 40 percent)
- Taxable retail sales (weighted 10 percent)

Each locality's index is adjusted to maintain an overall statewide local share of 45 percent and an overall state share of 55 percent.
