### Objective \*

Please, let us know what the objective of your circular project is (quantify the objective if possible, i.e. expected reduce in waste generation). Also, please mention what you would like to get from C-VoUCHER.

**Project theme/concept \***

- Industrial Symbiosis
- Material Resource Efficiency
- Resource Energy Sources & Energy Efficiency
- Biological Products
- Product Life Cycle Extension

**If you choose "Other" in the above question, please specify**

**EXCELLENCE**

**Please, provide information presenting the need (within your company) to become a resource-efficient business \***

Why do you want to become resource efficient company? What does it mean to you to be a resource efficient organization?.

**Please, provide information about the cooperation with other sectors in order to optimize the use of resources. \***

Have you ever cooperated with other sectors to optimize the use of resouces? How did you do that? How would you like to establish/strengthen the cooperation with other sectors within this project?

**Please, provide information about the new (innovative) elements that you would like to introduce in the proces of resources optimization? \***

What new tools, strategies, concepts, etc. will your project use in the area of resources optimization?

## IMPACT

**Please, provide information about your market, including your positioning and differentiation points. \***

What is your market? Where do you position your company? Who are your competitors? How are you different from them?

**Please, provide information about the expected market resulting from your circular project. \***

Will you be entering new market (new customers, partners, value chains) after completing this project? Does the result from your circular project have market potential? (i.e. You will be creating a recycled products in cooperation with another sector - will there be a group of customers to use/buy it?

**Please, provide information about the possibility to scale up your solution. \***

Regarding the result of your circular project - will it be possible to scale up this concept? Adopt it in other sectors? Regions? Other elements of the valu chain?

## IMPLEMENTATION

**Please, provide a general implementation plan for your circular project. \***

What are the main tasks? What is the expected time frame?

**Please, present the key people in the team that will be running the circular project. If possible, please describe 3-5 team members, including also the strategic managers (i.e. CEO, technology director, product expert, logistics expert.). \***

Who are these people? What are their roles? What are their skills? How much time can they dedicate to this project? What is the level of engagement for each person?

**Please, provide information about other resources that you are planning to use in your circular project. \***

What are other things/elements that you will need to use? How are you planning to use them?

## OTHER (TRANSVERSAL) CRITERIA

**Municipalities involvement in the implementation. \***

Have you planned to involve your municipality/region into the project? If so, is what way?

**Environment and low carbon economy contribution. \***

Will your project - besides the obvious circular benefits - contribute to the low carbon economy? If so, in what way?

**Equal Opportunities. \***

Is your project limiting - in any way - the concept of equal opportunities?

### Social Impact \*

Is your project having a social impact? On your community? Region? Maybe in wider context? If so, how?
