**PRESENTED TO**  
**MARISELA AVILA**

*Marisela has been with the Palm Garden family for over 20 years and has always performed her job duties with the utmost respect for our guest and residents. Marisela has shown throughout her tenure at Palm Garden that she loves her residents by going above and beyond her duties as a CNA. This was shown during an interaction she had with one of our guests and her husband. Back in early 2018 we had a guest come to our center who had not walked in over a year. This guest after skilled services was placed on a restorative program led by Marisela. After building a relationship with this guest over time and encouraging her to participate everyday this guest took her first step in over a year. Her husband was overcome with joy with the idea his wife has the possibility to come home. He could not hold back his tears while hugging his wife and Marisela! We are thankful every day for Marisela's dedication to our team. Marisela is Palm Garden!*
