

Senior Dementia Care Community

Our 2 acre, secured property specializes in care to residents who have Dementia, Alzheimer's disease or other related cognitive disorders. We provide daily structure which is designed to maintain the resident's abilities and give each resident a sense of security. By honoring past interests and involvements, we integrate programs that will maximize skills and support successful experiences. We continually embrace the ideas in good Alzheimer's and dementia care. We provide assistance and support to the families and caregivers in the community.

Our family serving your family

Respite Care

Whether it's for the resident or the home caregiver, we have a comprehensive program designed for relief and peace of mind that provides caregivers with a MUCH-NEEDED break to run errands, spend time with family or just get away from the stress of caregiving. We provide a safe environment, with freedom to walk or sit in place to handle wandering and other behaviors that are common among Alzheimer's and dementia patients. Daily activities, meals, exercise and socialization are tailored to each resident.
