## NEW VISTA NURSING & REHABILITATION

*is a 116 bed skilled nursing facility with a specialty in subacute care. We are in the heart of West Los Angeles and close to all the hospital systems, providing personalized health care services to many of the local hospitals and physicians in the Los Angeles area.*

*We provide quality care and personal comfort to patients during their stay, and are proud to help patients gain increased levels of functional abilities and optimal independence.*

### NURSING SERVICES

**NEW VISTA POST ACUTE CARE CENTER** offers comprehensive Nursing Services. These services accommodate a full range of medical needs. We also provide a wide variety of comprehensive protocols for a wide variety of disorders and conditions. Our basic services include 24 hour RN Nursing Care, Recreational Therapy, Respiratory Therapy, Restorative Nursing Therapy, Psychological Support, Dietary Services, and Social Services.

**NEW VISTA** Subacute care is comprehensive inpatient care designed for someone who has an acute illness, injury, or exacerbation of a disease process. Our interdisciplinary approach is used to formulate a goal-oriented plan of care for each resident. The Subacute care team is dedicated to providing appropriate interventions to avoid unnecessary and frequent hospitalizations. Our Subacute unit focuses on training patients to achieve their highest level of independence as quickly as possible.

**NEW VISTA** Nursing understand that planning and coordination of health care is a challenge. The **NEW VISTA** Case Management Team is ready to organize everything from connecting patients with community resources, to helping families navigate through the complexities of insurance. Our goal is to coordinate and arrange as much as possible, so patients can focus on getting better and family members can feel comfortable upon discharge.

### SKILLED NURSING

#### ■ *Diverse Medical Conditions*

- Orthopedic
- Pulmonology
