Yes, it feels like home—and now
our home is getting an overhaul!

*After years of
planning and
dreaming, the
paperwork has
been signed and
Emerald Care is
getting a facelift!*

Our \$1 million upgrade will be completed about summer's end:

You'll love our new porte-cochère, front entry, and high-tech security system as well as a spa-style bathing facility and building-wide lighting and electrical upgrades. Each resident room will be completely remodeled (walls, floors, windows, bathrooms, etc.) to include in-room air conditioning and wall-mounted HDTVs with infrared headphones ... and more!
