

Resident/Family/ POA Update re: COVID-19 Status

March 5, 2021

All staff were tested for COVID-19 this week and all test results were negative. Staff will test next week on Monday or Tuesday.

Walgreen's Pharmacy was here to administer the 2nd Pfizer vaccine to residents on Wednesday, March 3.

We are continuing to follow measures in accordance with the local health department's guidance:

- Residents are being monitored daily for signs/symptoms of Covid-19.
- Outdoor visitation – appointments can be made by contacting the receptionist.
- Indoor visitation – appointments can also be made by scheduling through the receptionist. (Indoor visits require a negative Covid-19 test within 72 hours/3 days of visit)
- The beautician has returned.
- Socially Distanced Activities are continuing.
- Meals are being served in the dining room and resident apartments following socially distancing guidelines.

*Residents should leave the facility for medically necessary physician appointments only – (consult with their assigned RN case manager, to determine if an appointment can be postponed or if it is medically necessary).

*Until further notice, Montevue will schedule and transport residents to medically necessary MD appointments to limit exposure within a family vehicle.

*Residents who leave the facility in a vehicle other than the facility vehicle will be placed in observation/quarantine for 14 days.

We continue to communicate with Frederick Health Department daily and change any suggested interventions. We follow all current recommendations and guidelines as directed by local, state, and federal agencies.

Thank you for all your support. We will continue to provide updates to you via telephone blast texts and emails if you have subscribed. You may email questions to covidquestions@montevuealf.com
