

# LOUISVILLE EAST POST ACUTE

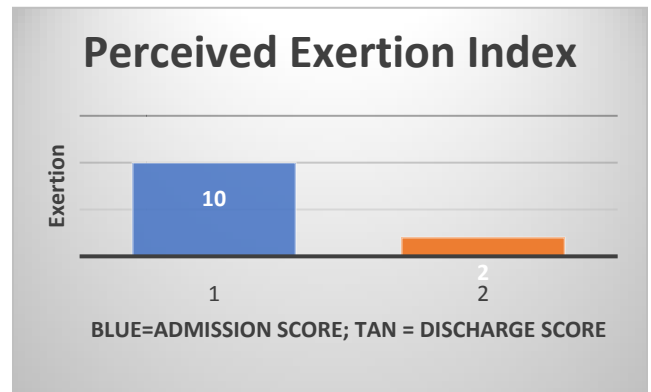

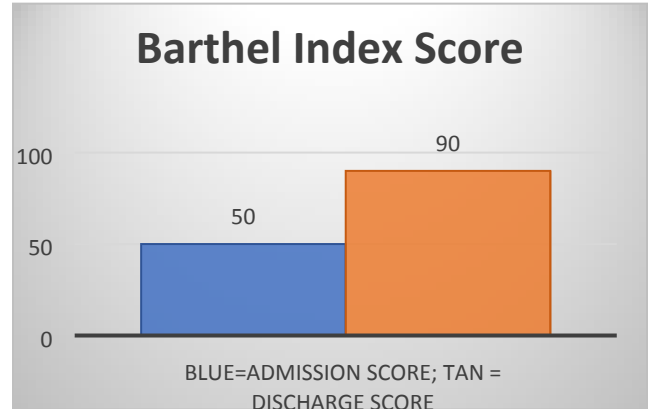

Name: Sandra S.

Diagnoses: Irregular Heart Beat,  
Heart Disease

Physician(s): Dr. Grewal

Dates of Stay: 11/19/18-12/07/18

Occupational Therapy in preparation to return home. Her Outcomes are:

In Her own Words: “The staff treated me wonderfully. The therapists were a fun group to work with. At first, I didn’t feel like I could do this and would not get better. Slowly over time while coming to rehab each day, I got a little stronger. I would encourage anyone considering coming here to never give up, and never stop. You will get better.” She received Physical and

These assessments indicate that she improved from completing activities of daily living with 50% independence improving to 90% independent, and self-determined exertion with standing and walking dropped from a 10/10 to a score of 2/10. We are proud to see Sandra return home!
