

Located near historic downtown Auburn, Rock Creek Care Center is committed to providing the highest quality rehabilitative and nursing care. We take pride in being a key part of the transition from hospital to home.

Our expanded therapy gym and private rehab suites offer a unique and personalized rehabilitation experience for patients recovering from orthopedic procedures, strokes, and neurological impairments.

Our mission at Rock Creek is to enrich lives, one person at a time. We strive to do this by honoring each person in the very way we see them, as human beings. Our caring staff takes the time to get to know each person we serve, and delivers a customized plan of care to meet individual needs. Through a shared effort with our Medical Director, Physician Assistant, Rehab team, and Nursing staff, we work closely with patients and families to enrich lives and achieve desired goals.

We invite you to come tour our facility!
