

The weWomen research study for immigrant and refugee women lets you assess threats to safety in your relationship and provides a tailored safety plan, resources and information based on your priorities.

If you are...

- ✓ 18-64 years old
- ✓ Foreign-born immigrant or refugee woman
- ✓ You have or have had a husband, boyfriend, or romantic partner in the past 12 months
- ✓ You have access to a safe computer or smartphone

...Your response is important to us.

Be a part of this voluntary, confidential research study on women's safety and health designed by Johns Hopkins University. This research study involves four web or smartphone based surveys at 3, 6, and 12 months after your first session. You will be paid each time you complete the survey (up to \$115 in gift cards).
