SECTION 1: Identification

1.1. Identification

Product name: GELEST TALC ML
Product code: TA7-MLA
Product form: Substance
Physical state: Solid
Synonyms: TALC, SILICON ALKYL METHYL GLYCOL
Other means of identification: INCI NAME: TALC, DIMETHICONE PEG-3 LAURATE

1.2. Recommended use and restrictions on use

Recommended use: Cosmetics, personal care products

1.3. Supplier

GELEST, INC.
11 East Steel Road
Morrisville, PA 19067
USA
T 215-547-1015 - F 215-547-2484 : (M-F): 8:00 AM - 5:30 PM EST
info@gelest.com - www.gelest.com

1.4. Emergency telephone number

Emergency number: CHEMTREC: 1-800-424-9300 (USA); +1 703-527-3887 (International)

SECTION 2: Hazard(s) identification

2.1. Classification of the substance or mixture

GHS-US classification
Not classified

2.2. GHS Label elements, including precautionary statements

GHS US labeling
No labeling applicable

2.3. Hazards not otherwise classified (HNOC)

No additional information available

2.4. Unknown acute toxicity (GHS US)

Not applicable

SECTION 3: Composition/Information on ingredients

3.1. Substances

Substance type: Multi-constituent
Name: GELEST TALC ML
CAS-No.: 14807-96-6, 1318-59-8 & 212335-52-9

<table>

Full text of hazard classes and H-statements: see section 16

3.2. Mixtures

Not applicable

SECTION 4: First-aid measures

4.1. Description of first aid measures

First-aid measures general: Remove contaminated clothing and shoes. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). If possible show this sheet; if not available show packaging or label.

First-aid measures after inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, seek medical advice.

First-aid measures after skin contact: Wash with plenty of soap and water. Get medical advice/attention.

First-aid measures after eye contact: Immediately flush eyes thoroughly with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention.
First-aid measures after ingestion: Never give anything by mouth to an unconscious person. Get medical advice/attention.

4.2. Most important symptoms and effects (acute and delayed)
- Symptoms/effects after inhalation: Symptoms of acute accidental exposure are non-specific and similar to the inhalation of any dust.
- Symptoms/effects after skin contact: Skin irritation is not expected from available information.
- Symptoms/effects after eye contact: Can cause temporary discomfort and irritation if accidentally introduced into the eye.
- Symptoms/effects after ingestion: No information available.

4.3. Immediate medical attention and special treatment, if necessary
No additional information available

SECTION 5: Fire-fighting measures

5.1. Suitable (and unsuitable) extinguishing media
- Suitable extinguishing media: None.

5.2. Specific hazards arising from the chemical
- Fire hazard: None.

5.3. Special protective equipment and precautions for fire-fighters
- Firefighting instructions: None.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
- Protective equipment: Wear protective equipment as described in Section 8.
- Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders
- Protective equipment: Do not attempt to take action without suitable protective equipment. Equip cleanup crew with proper protection. For further information refer to section 8: "Exposure controls/personal protection".

6.2. Environmental precautions
- Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

6.3. Methods and material for containment and cleaning up
- For containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.
- Methods for cleaning up: If the product is clean and dry, shovel, vacuum or sweep up and return to container for use. Otherwise sweep or vacuum for disposal.

6.4. Reference to other sections
- See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
- Precautions for safe handling: Avoid contact with skin and eyes. Do not breathe dust. Provide local exhaust or general room ventilation to minimize exposure to dust. Talc, like all fine powders, can create dust when handled. Keep all floors, workstation, stairs and handrails clean and dry.
- Hygiene measures: Wash contaminated clothing before reuse. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work.

7.2. Conditions for safe storage, including any incompatibilities
- Storage conditions: Keep container tightly closed. Keep in a clean and dry place; All traditional packing methods can be used.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>
<thead>
<tr>
<th>Material</th>
<th>ACGIH TWA (mg/m³)</th>
<th>OSHA PEL (TWA) (mg/m³)</th>
<th>IDLH (mg/m³)</th>

<td>2 mg/m³ (Respirable dust, TWA – 8 hr. period)</td>
<td>2 mg/m³ (Table Z-3 Mineral Dust, published by OSHA)</td>
<td>1000 mg/m³ (containing no asbestos and &lt;1% quartz)</td>
</tr>
<tr>
<td>NIOSH REL (TWA) (mg/m³)</td>
<td>2 mg/m³ (containing no Asbestos and &lt;1% Quartz-respirable dust)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### 8.2. **Appropriate engineering controls**

Appropriate engineering controls: Provide local exhaust or general room ventilation.

### 8.3. **Individual protection measures/Personal protective equipment**

**Personal protective equipment:**

Avoid all unnecessary exposure. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure.

**Hand protection:**

Neoprene or nitrile rubber gloves

**Eye protection:**

Safety glasses. Contact lenses should not be worn

**Skin and body protection:**

Wear suitable protective clothing

**Respiratory protection:**

Where exposure through inhalation may occur from use, respiratory protection equipment is recommended. NIOSH-certified dust and mist (orange cartridge) respirator.

### SECTION 9: Physical and chemical properties

#### 9.2. **Other information**

No additional information available

### SECTION 10: Stability and reactivity

#### 10.1. **Reactivity**

No additional information available

#### 10.2. **Chemical stability**

The product is stable at normal handling and storage conditions.

#### 10.3. **Possibility of hazardous reactions**

No additional information available
10.4. Conditions to avoid
No additional information available

10.5. Incompatible materials
No additional information available

10.6. Hazardous decomposition products
No Hazardous products (water and CO₂ >400°C).

SECTION 11: Toxicological information

11.1. Information on toxicological effects

<table>
<thead>
<tr>
<th>Acute toxicity</th>
<th>Not classified</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skin corrosion/irritation</td>
<td>Not classified</td>

Reproductive toxicity: Not classified

No teratogenic effects were found in animals after oral ingestion of talc.

Specific target organ toxicity – single exposure: Not classified

Specific target organ toxicity – repeated exposure: Not classified

Aspiration hazard: Not classified

Potential Adverse human health effects and symptoms: Note: Symptoms of acute accidental exposure are non-specific and similar to the inhalation of any dust; such symptoms may include paroximal coughing, wheezing, difficult breathing and upper respiratory tract irritation. Repeated overexposure can develop a benign pneumoconiosis, known as talcosis which can cause respiratory problems and lung complications. Smoking and concomitant diseases might impose an additional pulmonary burden which may alter the course of the pneumoconiosis. Talc is neither orally not cutaneously toxic.

Symptoms/effects after inhalation: Symptoms of acute accidental exposure are non-specific and similar to the inhalation of any dust.

Symptoms/effects after skin contact: Skin irritation is not expected from available information.

Symptoms/effects after eye contact: Can cause temporary discomfort and irritation if accidentally introduced into the eye.

Symptoms/effects after ingestion: No information available.

SECTION 12: Ecological information

12.1. Toxicity

Talc (14807-96-6)

| LC50 fish 1 | > 100 g/l (Exposure time: 96 h - Species: Brachydanio rerio [semi-static]) |

12.2. Persistence and degradability
No additional information available

12.3. Bioaccumulative potential

Talc (14807-96-6)

| BCF fish 1 | (no known bioaccumulation) |

12.4. Mobility in soil
No additional information available

12.5. Other adverse effects

Other adverse effects: No known dangerous effects on the environment.

Effect on the ozone layer: No additional information available
SECTION 13: Disposal considerations

**13.1. Disposal methods**

**Sewage disposal recommendations**: Do not dispose of waste into sewer.

**Product/Packaging disposal recommendations**: Talc is not a hazardous waste. Dry material can be landfilled. Dispose in a safe manner in accordance with local/national regulations.

**Ecology - waste materials**: Avoid release to the environment.

SECTION 14: Transport information

**14.1. UN number**

Not regulated for transport.

**14.2. UN proper shipping name**

Not applicable

**14.3. Additional information**

**Other information**: No supplementary information available.

**Transport by sea**

No additional information available

**Air transport**

No additional information available

SECTION 15: Regulatory information

**15.1. US Federal regulations**

**SECTION 16: Other information**

**Abbreviations and acronyms**
- Abbreviations: ND: Not Determined, No Data; NA: Not Applicable; LD: Lethal Dose; LC: Lethal Concentration; ATE: Acute Toxicity Estimates; H: hour; °: °C unless otherwise stated; mm: millimeters Hg, torr; PEL: permissible exposure level; TWA: time weighted average; TLV: threshold limit value; TG: Test Guideline; NIOSH: National Institute for Occupational Safety and Health; IARC: International Agency for Research on Cancer; NTP: National Toxicology Program; HMIS: Hazardous Material Information System; CAS No.: Chemical Abstract Service Registration Number; EC No.: European Commission Registration Number; EC Index No.: European Commission Index Number; OECD: The Organisation for Economic Co-operation and Development; GHS: The Globally Harmonized System of Classification and Labelling; APF: Assigned Protection Factor.

**Hazard Rating**

**Health**
- 1 Slight Hazard - Irritation or minor reversible injury possible

**Flammability**
- 0 Minimal Hazard - Materials that will not burn

**Physical**
- 0 Minimal Hazard - Materials that are normally stable, even under fire conditions, and will NOT react with water, polymerize, decompose, condense, or self-react. Non-Explosives.
