

GV-Remote ViewLog V2 Version History

Version V17.4.5 2022-10-04

New:

- Support for GV-Backup Center and GV-AI Guard for remote playback
- New display option added to retain the last frame when video stops playing

Modified:

- Camera Name appended to the folder name when backing up files without any player included
- Number of merged files (Save as AVI) increased from 10 to 100
- Drag-and-drop of files/folders to the EZViewLog player allowed
- Deleting of a GV-Remote ViewLog account allowed
