Editing style guides

Welcome to Compass Rose Horizons. We offer expert proofreading, editing, book design, eBook formatting, and transcription services. Style guides set rules for language usage, such as spelling, italics, and punctuation. They are rule books for authors and editors to ensure that language is used consistently. Authors, especially students who write a thesis or thesis, are often invited or required to use a style guide in the preparation of their work for publication. Copy editors are tasked with executing the format. There are many, many reference books and manuals for copy editors and proofreaders on the market. Some of these are must-haves and should be on the shelf for every publishing professional. Others are focused on a particular industry or type of writing. These are some of the style guides, grammar books and publishing-related titles we have in our library at Compass Rose Horizons. Chicago Manual of Style University of Chicago Press In the 1890s, a proofreader at the University of Chicago Press prepared a single sheet of typographical fundamentals intended as a guide for the university community. That sheet grew into a brochure, and the brochure grew into a book—the first edition of the Manual of Style, published in 1906. Now in its sixteenth edition, the Chicago Manual of Style is an important reference for writers, editors, proofreaders, indexers, copywriters, designers and publishers in all fields. The Elements of Style William Strunk and E.B. White Argue that one must first know the rules to break them, this classic reference book is a must for all students and conscientious writers. Intended for use where the use of the composition is combined with the study of literature, it gives in brief space the principal requirements of plain English style and concentrates attention on the rules of use and principles of composition most frequently violated. Publication Handbook of the American Psychological Association American Psychological Association The Publication Manual of the American Psychological Association is the style manual choice for authors, editors, students, teachers and professionals in psychology and behavioral sciences, sociology, business, economics, nursing, social work, criminology and law enforcement, and other disciplines where effective communication with words and data is fundamental. MLA Style Manual and Guide to Scholarly Publishing Joseph Gibaldi For nearly half a century, the style recommended by the Modern Language Association for Scientific Manuscripts and Student Research Essays has been widely adopted by academic journals, schools, college departments and individual instructors. Today MLA instructions are used by over 125 periodicals with circulations over 1000; of hundreds of smaller scientific journals, literary reviews newsletter; and by many university and and Pressure. MLA documentation style is one of the great style guidelines used in the United States: it is commonly used in Canada and other countries as well. There are literally dozens of English editing style guides to follow. Which one are you going to use? And when? Here's a list of the top editing style guides and when it's best to use them: Chicago Style* Chicago Manual of Style—CMoS, or CMS, for cards—is the default in book publishing. It is also common for history and art. One of the first American English style guides, it was originally published in 1906 by the University of Chicago Press and has since released updated editions every seven to ten years. CMoS is a comprehensive reference guide for grammar, citation, preparation, and everything in between. It's often called the editor's bible. CMoS online: Available on Amazon: 16th Edition 17th Edition *At Elite Editing, we truly consider CMoS to be the Editor's Bible. It's our standard style guide, and we'll edit to CMoS unless another style guide is requested. APA Style The Publication Manual of the American Psychological Association—or APA for short—was first developed by the American Psychological Association in 1929. Originally set up to ensure consistency among papers in the psychology field, it expanded rapidly and is now widely used in social and behavioral sciences. APA focuses on simplifying the style, from tables to quotes to abbreviations to the structure of writing.
