The Meatball Shop

**170 Bedford Ave., Williamsburg;
64 Greenwich Ave.; no phone yet**

Good news for carnivores: Daniel Holzman and Michael Chernow, founders of the popular Lower East Side resto the Meatball Shop, are expanding their empire. A large Williamsburg location — originally slated to debut this month — will open its doors in June or July. And in August or September, the duo will open another location in the West Village. Both will maintain the aesthetic of the flagship and its customizable meatball menu.
