

## Sustainable Agriculture Metrics from FAST

The Finance Alliance for Sustainable Trade (FAST) and IRIS co-convened a working group to develop a set of core indicators to measure the social, environmental and economic impact of investments in small-to-medium enterprises (SMEs) that are active in sustainable agricultural value chains.

The FAST outputs of this working group included a Shared Impact Assessment and Measurement Toolbox (SIAMT) that serves as the basis for FAST's ongoing work to analyze its members' impact. This toolbox also includes a set of priority indicators which are being used for initial reporting and data collection. The table below summarizes the FAST priority indicators that are aligned with IRIS.

### Detailed FAST SIAMT Descriptor Indicators

Note that the following metrics may overlap with the FAST SIAMT Performance Indicators. This table lists all descriptor indicators included in the FAST SIAMT tool, including those that are calculated or not aligned with IRIS metrics.

FAST SIAMT Indicator at SME Level		Related IRIS Indicator(s)	
Indicator	Name	ID	Definition
<b>Organization Description</b>			
<b>Name of Organization</b>	Name of Organization	OD5828	Name of the organization.
<b>Reporting Currency</b>	Reporting Currency	OD5990	The national currency used to report currency figures for this IRIS report.  Indicate based on the International Organization for Standardization (ISO) Currency List. Select one from the Excel Detailed List tab.
<b>Organization Web Address</b>	Organization Web Address	OD7796	Web address (URL) of the organization.
<b>Year Founded</b>	Year Founded	OD3520	Year the organization was founded.
<b>Location of Organization's Headquarters</b>	Location of Organization's Headquarters	OD6855	Address of the organization's legally incorporated headquarters.
<b>Location of Organization's Operating Facilities (if applicable)</b>	Location of Organization's Operating Facilities	OD1777	Address of the organization's operating facilities.
<b>Mission Statement</b>	Mission Statement	OD2735	The mission statement of the organization.
<b>Environmental Impact Objectives</b>	Environmental Impact Objectives	OD4108	Environmental impact objectives pursued by the organization. Select all that apply: - Biodiversity conservation - Energy and fuel efficiency - Natural resources conservation - Pollution prevention & waste management - Sustainable energy - Sustainable land use - Water resources management
<b>Availability of a Business Plan</b>	n/a	n/a	n/a
<b>Report Start Date</b>	Report Start Date	OD6951	Start date of the reporting period for which the organization is providing data.
<b>Report End Date</b>	Report End Date	OD7111	End date of the reporting period for which the organization is providing data.
<b>Product Description</b>			
<b>Crops/ product produced by the farmer: Selection from Source</b>	Crop Type	PD1620	Type of crop(s) produced by the organization. Select from the options in the Excel Reference List tab.
<b>Crops/ products produced by the SME/Coop/Enterprise</b>			Source: Adapted from Food and Agriculture Organization (FAO) of the United Nations
